Stauffer, Monica Bonfanti, 2006-10-11 *Forensic Investigation of Stolen Recovered and Other Crime Related Vehicles* provides unique and detailed insights into the investigations of one of the most common crime scenes in the world. In addition to a thorough treatment of auto theft, the book covers vehicles involved in other forms of crime, dealing extensively with the various procedures and dynamics of evidence as it might be left in any crime scene. An impressive collection of expert contributors covers a wide variety of subjects, including chapters on vehicle identification, examination of burned vehicles, vehicles recovered from under water, vehicles involved in terrorism, vehicle tracking, alarms, anti-theft systems, steering columns, and ignition locks. The book also covers such topics as victim and witness interviews, public and private auto theft investigations, detection of trace evidence and chemical traces, vehicle search techniques, analysis of automotive fluids, vehicle registration document examination, and vehicle crime mapping. It is the ultimate reference guide for any auto theft investigator, crime scene technician, criminalist, police investigator, criminologist, or insurance adjuster. Extensively researched and exceptionally well written by internationally recognized experts in auto theft investigation and forensic science, all the principles explained in the text are well illustrated and demonstrated with more than 450 black and white and about 100 full color illustrations, many directly from real cases. Serves as both a valuable reference guide to the professional and an effective teaching tool for the forensic science student.

*Handbook on the Economics of Retailing and Distribution* Emek Basker, 2016-01-29 This Handbook explores and critically examines current research in economics and marketing science on key issues in retailing and distribution. Providing a rich perspective for the discussion of public policy, contributions from several disciplines and continents range from the history of chains and the impact of multinational retailers on international trade patterns to US merger policy in the retail context, the rise of the Internet and consumer to consumer sales. The chapters address methodological issues such as the structural estimation of entry games between retailers, productivity measurement when both inputs and output are not fully observable, and demand estimation with variable assortment. Policy issues explored include mergers, zoning, and the regulation of buyer power, while other chapters address some of the recent exciting developments in technology, retail formats, and data availability. The book goes on to study the changes in online retailing and big data and to examine competition in specific retail sectors, including gasoline stations, automobile dealerships, supermarkets, and big box retail. This state-of-the-art Handbook is an essential reference for students and academics of economics and marketing science and offers an outsider's perspective to specialists in operations research, data analytics, geography, and sociology.
