Curriculum, Teaching and Learning Today Karma M. Chukdong,2017-03-25 This text looks carefully at the sociological historical and economic sides of our education systems today Since education is ultimately linked to whose knowledge counts we are also forced to look at the world of Policy studies Policy studies itself should focus on diverse methodologies that guarantee authentic policy development In this way our society can automatically recognize when certain policies are a mere placebo This diagnosis of policy placebo is a pattern that we can see over and over and we should be come more aware Policy placebo is when policy is created to make it look like an issue was trying to be resolved or it attempted to solve an issue but the intention was never an altruistic one Then there are some policies that may have good intentions but caused more harm than good
