Handbook of Race and Development in Mental Health Edward Chang, Christina A.

Downey, 2011-10-02 This project is unique in the field for a number of reasons both in structure and in content. Specifically, it will have leading experts on specific age groups: Childhood to Adolescence, Young Adulthood to Middle Age, and The Elderly, within the cultural groups of interest: European Americans, African Americans, Asian Americans, Hispanic Americans, and Native Americans. Each chapter will present basic demographic information, strengths that contribute to resilience, and three significant challenges each group faces to maintaining mental health. Each chapter will then include an integrative section where ideas are advanced about how the strengths of each group can be harnessed to address the challenges that group faces. To conclude, each chapter will propose future directions for research which addresses integrative approaches to mental health for each group and the implications that such approaches could have for future treatment. The main points of each section of each chapter will be visually summarized in a concluding table.

Foundations of Sport and Exercise Psychology

Robert S. Weinberg, Daniel Gould, 2023-03-03 Foundations of Sport and Exercise Psychology Eighth Edition With HKPropel Access is a leading textbook that offers a comprehensive view of sport and exercise psychology. It draws connections between research and practice and captures the excitement of the world of sport and exercise. Internationally respected authors Robert Weinberg and Daniel Gould have built a text that addresses emerging trends and remains relevant with each new edition. Every chapter has been updated with the latest research and practice in sport and exercise psychology while maintaining and highlighting classic studies that have shaped the field. In-depth learning aids have been refreshed to help students think critically. Specific content changes were made throughout the text to highlight significant advances in research and practices. These include areas such as mental health of athletes, effects of COVID-19 on athletes, mindfulness, legalized gambling, psychological issues surrounding the 2020 Olympic Games held in 2021, and drug controversies. Foundations of Sport and Exercise Psychology provides students with a unique learning experience starting with an exploration of the field's origins, key concepts, research, development, and career options available in the field. After this introduction to the field, the text shifts to personal factors that affect performance and behavior in sport, physical education, and exercise settings. It augments those concepts by factoring in situational circumstances that influence behavior, group interaction, and processes, and the use of psychological techniques to help people perform more effectively. Students will gain critical insights into the role psychological factors play in health and exercise and the psychological consequences of
