Life in the Balance Leader's Guide Joni Eareckson Tada, 2010-08-11 Never before has it been so important for Christians to discover the answers God's Word holds to our culture's biggest ethical and social dilemmas. Every day the 24-hour news cycle offers stories from around the world of unimaginable physical, mental, and emotional suffering. Yet more often than not, these stories and the underlying problems they represent are reported with no suggestions for resolution. Can it really be true that there are no solutions to our world's biggest crises? Joni Eareckson Tada refuses to believe it. On her TV show, she has interviewed scores of people who have faced life's toughest battles and emerged victorious. In *Life in the Balance*, Joni and her friends take on some of the most difficult issues covered by the evening news, such as street violence, abortion, autism, genocide, and stem cell research. But they don't just tell the stories; they dig deep into the Word of God to find real and lasting solutions to so-called unsolvable problems. This workbook, designed for participants in a *Life in the Balance* individual and group study, will guide readers to apply the timeless yet timely truth of God's Word to society's greatest challenges.

Musings of a Missionary Mom Jayne P. Bowers, 2006-01-23 This volume reflects a few of the author's thoughts and insights while her son was spending the best two years of his life serving a full-time mission for the Church of Jesus Christ of Latter-day Saints in Torreon, Mexico. Turning to the scriptures as a way of better coping with his absence, she was soon reminded that whether a person needed a lesson in faith, a reminder to be grateful, or a proverb on the value of hard work, she could find the answer within these divine pages. Applying scripture references from the Bible, the Book of Mormon, and the Doctrine and Covenants to everyday life, *Musings* underscores the importance of the sacred works in finding solace, inspiration, and guidance.

Career Construction Theory and Life Writing Hywel Dix, 2021-05-13 This volume applies the insight and methods of career construction theory to explore how autobiographical writing is used in different professional careers, from fiction and journalism to education and medicine. It draws attention to the fact that a career is a particular kind of artefact with distinctive properties and features that can be analysed and compared and puts forward a new theory of the relationship between narrative methodology and the vocation of writing. Career construction theory emerged in the late twentieth century when changes to the patterns of our working lives caused large numbers of people to seek new forms of vocational guidance to navigate those changes. It employs a narrative paradigm in which periods of uncertainty are treated as experiences akin to writer's block, experiences which can be overcome first by imagining new character arcs, then by narrating them, and finally by performing them. By encouraging clients to see their careers as stories of which they are both the metaphorical authors and the main protagonists, career construction counsellors enable them to envisage the next chapter in those stories. But despite the authorial metaphor, career construction theory has not been widely applied to analysis of professional careers in writing. The chapters in this volume remedy that gap and in various ways apply the insights of career construction theory to analyse the relationship between writing and professional life in diverse careers where
