Hollywood or History? Paul J. Yoder, Aaron P. Johnson, 2022-05-01 Traumatic events episodes that have caused or are likely to cause trauma color the experiences of K-12 students and the social studies curriculum they encounter in U.S. schools. At the same time that the global COVID-19 pandemic has heightened educators' awareness of collective trauma, the racial reckoning of 2020 has drawn important attention to historical and transgenerational trauma. At a time when social studies educators can simply no longer ignore difficult knowledge, instruction that acknowledges trauma in social studies classrooms is essential. Through employing relational pedagogies and foregrounding voices that are too often silenced, the lessons in *Hollywood or History: An Inquiry-Based Strategy for Using Film to Acknowledge Trauma in Social Studies* engage students in examining the role of traumatic or traumatic events in social studies curriculum. The 20 *Hollywood or History* lessons are organized by themes such as political trauma and war and genocide. Each lesson presents film clips, instructional strategies, and primary and secondary sources targeted to the identified K-12 grade levels. As a collection, they provide ready-to-teach resources that are perfect for teachers who are committed to acknowledging trauma in their social studies instruction.

Organizational Behaviour and Work Fiona M. Wilson, 2018 A critical yet accessible introduction to organisational behaviour and work, this book will help you understand the complexities of organisational life and evaluate modern business practices. Classic organisational behaviour topics such as team working, motivation, and change are complemented by core critical approaches such as power and control, organisational misbehaviour, and health and well-being, through a clear three-part structure. Students are encouraged to look beyond a descriptive approach and truly engage with the content. Examples and 'Stop and Think' boxes placed throughout chapters, as well as end-of-chapter case studies with accompanying questions, provide the opportunity for this engagement and show how each chapter's theoretical coverage applies in real-life business situations.

Emerging Evangelicals James S. Bielo, 2011-10 The Emerging Church movement developed in the mid-1990s among primarily white urban middle-class pastors and laity who were disenchanted with America's conservative Evangelical subculture. It is a response to the increasing divide between conservative Evangelicals and concerned critics who strongly oppose what they consider overly slick, corporate, and consumerist versions of faith. A core feature of their response is a challenge to traditional congregational models, often focusing on new church plants and creating networks of related house churches. Drawing on three years of ethnographic fieldwork, James S. Bielo explores the impact of the Emerging Church movement on American Evangelicals. He combines ethnographic analysis with discussions of the movement's history, discursive contours, defining practices, cultural logics, and contentious interactions with conservative Evangelical critics to rethink the boundaries of Evangelicalism as a category. Ultimately, Bielo makes a novel contribution to our understanding of the important changes at work among American Protestants and illuminates how Emerging Evangelicals interact with the cultural conditions of modernity, late modernity, and visions of postmodern Christianity. *Roger Ebert's*
