Houghton Mifflin Math Carole E. Greenes, Houghton Mifflin Company, 2005 *How Chinese Teach Mathematics and Improve Teaching* Yeping Li, Rongjin Huang, 2013 *How Chinese Teach Mathematics and Improve Teaching* builds upon existing studies to examine mathematics classroom instruction in China. It combines contributions from Chinese scholars with commentary from key Western scholars to offer a truly systematic examination of some important and distinctive features of mathematics classroom instruction. Viewing classroom instruction as part of teachers' instructional practices, this book goes beyond teachers in classroom instructional practice by also examining Chinese teachers' approaches and practices in developing and improving teaching. Through this unique approach, *How Chinese Teach Mathematics and Improve Teaching* expands and unpacks the otherwise fragmented knowledge about Chinese practices in developing and carrying out mathematics classroom instruction.
