History on Television Ann Gray, Erin Bell, 2013 In recent years non fiction history programmes have flourished on television This interdisciplinary study of history programming identifies and examines different genres employed by producers and tracks their commissioning production marketing and distribution histories With comparative references to other European nations and North America the authors focus on British history programming over the last two decades and analyse the relationship between the academy and media professionals They outline and discuss often competing discourses about how to do history and the underlying assumptions about who watches history programmes History on Television considers recent changes in the media landscape which have affected to a great degree how history in general and whose history in particular appears onscreen Through a number of case studies using material from interviews by the authors with academic and media professionals the role of the professional historian and that of media professionals commissioning editors and producer directors as mediators of historical material and interpretations is analysed and the ways in which the logics of television shape historical output are outlined and discussed Building on their analysis Ann Gray and Erin Bell ask if history on television fulfils its potential to be a form of public history through offering as it does a range of interpretations of the past to and originating from or including those not based in the academy Through consideration of the representation or absence of the diversity of British identity gender ethnicity and race social status and regional identities the authors substantially extend the scope of existing scholarship into history on television History on Television will be essential reading for all those interested in the complex processes involved in the representation of history on television

*The Pursuit of History* John Tosh, 2021-08-11 This classic introduction to the study of history invites the reader to stand back and consider some of its most fundamental questions what is the point of studying history How do we know about the past Does an objective historical truth exist and can we ever access it In answering these central questions John Tosh argues that despite the impression of fragmentation created by Postmodernism in recent years history is a coherent discipline which still bears the imprint of its nineteenth century origins Consistently clear sighted he provides a lively and compelling guide to a complex and sometimes controversial subject while making his readers vividly aware of just how far our historical knowledge is conditioned by the character of the sources and the methods of the historians who work on them History does not stand still and this updated seventh edition deals with complex and wide ranging material in a clear and accessible way that is up to date with current historiographical trends A fuller treatment is given to the importance of digitization both in the section on source criticism and in relation to public history reflecting its growing importance within historical study Both the text and references have been expanded to include a fuller range of both American and global scholarship and the book concludes with a forthright reminder that historical perspective illuminates major problems in the present Lucid and engaging this edition retains the user friendly features that make it a favourite with both students and lecturers including marginal glosses
