*The Bible, Homer, and the Search for Meaning in Ancient Myths* John Heath, 2019-04-29 The Bible Homer and the Search for Meaning in Ancient Myths explores and compares the most influential sets of divine myths in Western culture the Homeric pantheon and Yahweh the God of the Old Testament Heath argues that not only does the God of the Old Testament bear a striking resemblance to the Olympians but also that the Homeric system rejected by the Judeo Christian tradition offers a better model for the human condition The universe depicted by Homer and populated by his gods is one that creates a unique and powerful responsibility almost directly counter to that evoked by the Bible for humans to discover ethical norms accept death as a necessary human limit develop compassion to mitigate a tragic existence appreciate frankly both the glory and dangers of sex and embrace and respond courageously to an indifferent universe that was clearly not designed for human dominion Heath builds on recent work in biblical and classical studies to examine the contemporary value of mythical deities Judeo Christian theologians over the millennia have tried to explain away Yahweh s Olympian nature while dismissing the Homeric deities for the same reason Greek philosophers abandoned them they don t live up to preconceptions of what a deity should be In particular the Homeric gods are disappointingly plural anthropomorphic and amoral at best But Heath argues that Homer s polytheistic apparatus challenges us to live meaningfully without any help from the divine In other words to live well in Homer s tragic world an insight gleaned by Achilles the hero of the Iliad one must live as if there were no gods at all The Bible Homer and the Search for Meaning in Ancient Myths should change the conversation academics in classics biblical studies theology and philosophy have especially between disciplines about the gods of early Greek epic while reframing on a more popular level the

discussion of the role of ancient myth in shaping a thoughtful life      **Christian Apologetics: How a Bot Reassured my Faith in God** Kit H. The Emancipation of Faith. ... Edited by G. Schedel Henry Edward SCHEDEL,1858

**Karl Barth on Faith** Brandon K. Watson,2024-03-18 The present volume examines an underdeveloped component in the theology of Karl Barth Specifically the work asks how and to what extent can faith be understood as ontologically proper to the trinitarian becoming of God The work argues for an ontological grounding of faith in the becoming of God To do so Watson performs an in depth examination of Barth s understanding of the concept of faith Using Barth s threefold movement of revelation the work contends God can be thought of as the subject Glaubender predicate Glaube and object Geglaubte of faith Barth s theological exposition of Jesus as subject and object of election offers a promising proposal for how faith is ontologically understood At the same time the argument brings to the fore a crucial component of Barth s theological program namely the concept of recognition Anerkennung God s recognizing faith is then conceived as the condition of the possibility of human faith Drawing on Barth s entire oeuvre Watson offers an understanding of the divine becoming of faith that opens possibilities for thinking systematically about the realization of the corresponding human faith

**The Emancipation of Faith** Henri Édouard Schedel,1858

The Christian Work ,1925

**Thomas Aquinas** Nicholas Healy,2021-11-18 The work of Thomas Aquinas 1224 1275 has become increasingly influential in recent doctrinal theology and theological ethics aside from his extraordinary historical significance Thomas has been read ever since his death today as much as ever What is it that distinguishes his work and can his theological judgments and proposals still be brought to bear in contemporary theological inquiry This book presents a new study of Thomas Aquinas focusing on the evangelical pastoral and theocentric character of his premodern theology Healy presents Thomas as first and foremost a theologian of the Christian life who when he used philosophical concepts did so in order to fulfill the task of theology which he conceived as an ecclesial discipline dedicated above all to helping Christians follow Jesus Christ Thomas s interpretation of Scripture

and his theological method his Trinitarian ontology his Christology and his Christological anthropology conception of the church and sacramental theology are all examined from this perspective The richness and complexity yet profound simplicity of the Christian way of life Thomas reveals is shown to make a valuable contribution to the thought of contemporary readers and the significance of Thomas s writings for contemporary theological questions and concerns is revealed *The Oxford Handbook of Friedrich Schleiermacher* Andrew Dole,Shelli M. Poe,Kevin M. Vander Schel,2024 This Handbook presents authoritative interpretations of Schleiermacher s work from both German and English speaking scholars Topics covered include Schleiermacher s historical and intellectual context the structure and content of Schleiermacher s theology and philosophy and the reception of his thought **Christian Faith and Philosophical Inquiry** Charles Herndon Wagers,1961

*God and Reason, Second Edition* Ed L. Miller,2015-10-20 This book provides a concise introduction to the main ideas and issues in philosophical theology While covering a wide range of classic and contemporary perspectives the text stresses a historical approach focussing primarily on the development of philosophical theology in the Judeo Christian tradition *The Doctrine of God in Reformed Orthodoxy, Karl Barth, and the Utrecht School* R.T. te Velde,2013-06-27 In *The Doctrine of God* Dolf te Velde examines the interaction of method and content in three historically important accounts of the doctrine of God Does the method of a systematic theology affect the belief content expressed by it Can substantial insights be detected that have a regulative function for the method of a doctrine of God This two way connection of method and content is investigated in three phases of Reformed theology The first seeks to discover inner dynamics of Reformed scholastic theology The second part treats Karl Barth s doctrine of God as a contrast model for scholasticism understood in the framework of Barth s theological method The third part offers a first published comprehensive description and analysis of the so called Utrecht School The closing chapter draws some lines for developing a Reformed doctrine of God in the 21st century **Salvation by Faith** Hyonam Kim,2019-10-07 The doctrines of covenant faith and the order of salvation are crucial components of early modern Reformed soteriology In seventeenth century England these three major doctrines of Reformed theology which had been taken over undeveloped from the Reformers took a mature shape but aroused controversies among diverse Protestant groups Modern historical scholarship on Reformed orthodoxy has produced little significant research that deals with these doctrines synthetically This examination explores the broader role of faith in relation to these two significant doctrines for salvation in the early modern Reformed theology with specific reference to the thought of Thomas Goodwin To this end Hyo Nam Kim examines Goodwin s life to review his religious experience and to understand his socio theological context Goodwin s soteriology was sharpened by his battles on two fronts The first is the threat of Arminian Neonomian and Socinian soteriologies that tended to place meritorious value on faith and on human acts The second is the Antinomian errors that undervalued faith and human responsibility Goodwin regarded faith as a key concept for his soteriology Faith plays a central role in the covenant theology not only because a lack of faith was the immediate cause of breaking the covenant of works but

because saving faith was ordained in the covenant of redemption and actually functions in the covenant of grace as the instrument and a condition for the recovery of the relationship of mankind with God Examination of Goodwin's ordo salutis provides specific insight into the place and function of faith in the covenant of grace since each element of an ordo salutis refers to the blessings prepared for the elect to be finally saved Together with the role of faith in Goodwin's covenant theology therefore the reconstruction of Goodwin's ordo salutis and the close examination of the role of faith in each blessing confirm that although faith may be said to be both an instrument and a condition for salvation faith is the perfect instrument both for making salvation totally God's gracious work and for showing that the elect are not passive objects in the covenant
