What's Past is Prologue Beth R. Bernhardt, Leah H. Hinds, Lars Meyer, Katina P. Strauch, 2018-11-15 Over one hundred presentations from the 37th annual Charleston Library Conference held November 6-10 2017 are included in this annual proceedings volume. Major themes of the meeting included data visualization analysis and assessment of collections and library users demand driven acquisition, the future of print collections and open access publishing. While the Charleston meeting remains a core one for acquisitions librarians in dialog with publishers and vendors, the breadth of coverage of this volume reflects the fact that this conference continues to be one of the major venues for leaders in the publishing and library communities to shape strategy and prepare for the future. Almost 2 000 delegates attended the 2017 meeting ranging from the staff of small public library systems to the CEOs of major corporations. This fully indexed copyedited volume provides a rich source for the latest evidence based research and lessons from practice in a range of information science fields. The contributors are leaders in the library publishing and vendor communities.

Health and Safety in a Changing World Robert Dingwall, Shelley Frost, 2016-12-06 When health and safety regulatory frameworks took their present form in the 1970s they were seen as a triumph of welfare state intervention. Since then as heavy industry has declined and office and retail employment have expanded new ways of working have radically altered the context of health and safety policy. Many people have come to see health and safety interventions as an obstacle to innovation. This book aims to address the changing context of health and safety policy exploring concerns arising within the profession and the appropriate responses. Its manifesto for reform promises to frame the debate within the professional and policy community for a generation. The result of a major research programme funded by the Institution of Occupational Safety and Health (IOSH). *Health and Safety in a Changing World* shows how health and safety policy has developed over time how it is applied in practice and how best to make it fit for purpose in the 21st century. The book will be essential reading for professionals, practitioners and academic readers with an interest in the rapidly evolving field of health and safety.

[Britannica Book of the Year](#) Franklin Henry Hooper, 2016 *A Critical History of Health, Sport, and Physical Education* Michelle Gorzanelli, Jorge Knijnik, 2025-07-01 This book fills a gap in literature by generating a combined history of Physical Education (PE), School Sport (SS) and Health Education (HE) in New South Wales (NSW) public schools from 1880 to 2024. It includes broad discussions on how political issues such as the World Wars influenced i) the PE curriculum which was used as a medium to prepare a fit army; ii) the school sport system which acted as an expression of national strength via showcasing sporting prowess on the international stages of the Olympic Games; and iii) the health education curriculum which addressed infectious diseases resulting from poor hygiene associated with poverty. The book also adopts a socio-cultural perspective to the constructs of PE, SS and HE curricula and highlights significant local, national and international historical events and issues.

as factors driving curriculum developments and paradigm shifts in these subjects in the NSW public education and beyond It brings new and engendering socio historical findings to the discipline fields of PE SS and HE combined with an innovative methodology in critical historiographical studies
