What's the Point of International Relations? Synne L. Divergent Worlds Amitav Acharya, Manjeet S. Pardesi, 2025-01-14 A study of why the ancient Mediterranean and Indian Ocean took different paths to peace and stability and its lessons for international order today In this book Amitav Acharya and Manjeet S Pardesi compare the interplay of power and ideas in the ancient Mediterranean and Indian Ocean to explain why the two regions took divergent paths to peace and stability While the ancient Mediterranean order was shaped by the hegemony of Rome the Indian Ocean developed an open and inclusive international order without the dominance of any single power Moreover the Indian Ocean provides a more robust example of the peaceful spread of ideas and culture in contrast to the ancient Mediterranean where Hellenization or the spread of Greek ideas was often accompanied by violence and imperialism Applying the divergent experiences of the two regions the authors argue that the history of the Indian Ocean before European colonization offers a more useful framework for reshaping world order as the U S and Western dominated Liberal International Order comes to an end The Indian Ocean framework points to an alternative model of order building a multiplex rather than a multipolar approach that could sustain efforts to build peace and stability in the emerging Indo Pacific region Neutrality in World History Leos Müller, 2019-01-10 Neutrality in World History provides a cogent synthesis of five hundred years of neutrality in global history Author Leos Müller argues that neutrality and neutral states such as Switzerland Sweden Belgium have played an important historical role in implementing the free trade paradigm shaping the laws of nations and humanitarianism and serving as key global centers of trade and finance Offering an intriguing alternative to dominant world history narratives which hinge primarily on the international relations and policies of empires and global powers Neutrality in World History provides students with a distinctive introduction to neutrality's place in world history
