**Journey Across Time** Susan Gillerman Boggs, 2022-07-29 Journey Across Time opens a window to life in South Asia which has changed vastly since Susan Gillerman Boggs began living there as a diplomat's wife in 1985. In a captivating first person narrative, Boggs takes the reader to remote places many now closed to visitors. She describes experiences both exotic and hilarious and adventures impossible to replicate. The author invites us to share the color and pageantry of festivals, religious rites and parades of caparisoned elephants. She ventured into the Himalayas on perilous roads and was welcomed into a remote land of former headhunters. She dined with royalty and danced with a maharaja, conversed with Mother Teresa, met President Clinton and appeared in a film starring Pierce Brosnan. She survived floods, political assassinations and window shattering bombs. She was bitten by a grouper in a coral lagoon, sneezed on by an elephant and cornered in a cul de sac by angry bulls. Back on the home front, the author chronicles the daily joys and frustrations of diplomatic life with its cast of senior officials, mughals, intellectuals and colorful characters. With verve and self-deprecating humor, she describes the tribulations of managing a diplomatic household and orchestrating official events despite personal dramas, logistic challenges and power outages. Join her in a truly remarkable Journey Across Time.

*Time in Ancient Stories of Origin* Anke Walter,2020-06-30 Greek and Roman stories of origin or aetia provide a fascinating window onto ancient conceptions of time Aetia pervade ancient literature at all its stages and connect the past with the present by telling us which aspects of the past survive even now or ever since then Yet while the standard aetiological formulae remain surprisingly stable over time the understanding of time that lies behind stories of origin

undergoes profound changes By studying a broad range of texts and by closely examining select stories of origin from archaic Greece Hellenistic Greece Augustan Rome and early Christian literature Time in Ancient Stories of Origin traces the changing forms of stories of origin and the underlying changing attitudes to time to the interaction of the time of gods and men to historical time to change and continuity as well as to a time beyond the present one Walter provides a model of how to analyse the temporal construction of aetia by combining close attention to detail with a view towards the larger temporal agenda of each work In the process new insights are provided both into some of the best known aetiological works of antiquity e g by Hesiod Callimachus Vergil Ovid and lesser known works e g Ephorus Prudentius Orosius This volume shows that aetia do not merely convey factual information about the continuity of the past but implicate the present in ever new complex messages about time
