Innovating in a Secret World Tina P. Srivastava, 2019-07-01 Our national security increasingly depends on access to the most sophisticated and advanced technology Yet the next time we set out to capture a terrorist leader we may fail Why The answer lies in a conflict between two worlds One is the dynamic global commercial world with its thriving innovations The other is the world of national security in which innovation is a matter of life or death The conflict is about secrecy *Innovating in a Secret World* is a detailed examination of the U S government and innovation landscapes and of the current trends in often secret national security related research and development R D Based on case studies detailed research and interviews with executives at Fortune 500s startup entrepreneurs and military directors and program managers this accessible and timely book is a must read Tina P Srivastava evaluates whether the strategy of technology innovation in the world of national security leaves certain innovations behind or unintentionally precludes certain classes of innovators from participating She identifies the unintended consequences and emergent

behaviors of this conflict This examination unfolds in a complex dynamic system that includes the legal framework in which technology innovation must exist For more than a decade Srivastava has been on the front lines of cutting edge technology innovation She suggests focusing on an emerging class of R D strategy called open innovation a strategy that broadens participation in innovation beyond an individual organization or division traditionally assigned to perform R D activities Through compelling stories of commercial and early government applications she shows how open technology innovation strategies can enable accelerate and enhance technology innovation Successful incorporation of open innovation into the previously closed U S government R D landscape can yield profound benefits to both national security and global leadership

Purchase the audio edition [Teaching With Text-Based Questions](#) Kevin Thomas Smith,2014-03-14 Help your students navigate complex texts in history social studies and English language arts This book shows you how to use a key tool text based questions to build students literacy and critical thinking skills and meet the Common Core State Standards You ll learn how to ask text based questions about different types of nonfiction and visual texts including primary and secondary sources maps charts and paintings You ll also get ideas for teaching students to examine point of view write analytical responses compare texts cite textual evidence and pose their own high level questions The book is filled with examples that you can use immediately or modify as needed Each chapter ends with a reflection section to help you adapt the ideas to your own classroom What s Inside Helpful information on teaching different types of nonfiction texts including literary nonfiction informational texts primary and secondary sources and visual texts Ideas for locating primary sources Questions students should ask about every text Techniques for soliciting higher order questions from students Ways to get students to think critically about the relationships between texts Strategies to help students integrate information from different types of sources a skill that will help students respond to performance tasks on the PARCC and SBAC assessments and DBQs on AP exams Tips for teaching students to write good responses to text based questions including how to cite sources and incorporate point of view Ideas for using rubrics and peer grading to evaluate students responses Connections to the informational reading standards of the Common Core State Standards for English Language Arts for grades 3 12 and of the Common Core State Standards for Literacy in History Social Studies Science and Technical Subjects **Flipping Academic English Language Learning** Erik Voss,Ilka Kostka,2019-06-17 This book draws on theory research and practice oriented literature to offer an introduction to flipped learning and offer busy instructors advice on how to flip their academic English language courses The chapters balance theoretical foundations practical applications and useful resources for developing materials The first half of this book defines flipped learning and academic English describes how it supports English language learning and explains the role of technology as well as issues with accountability and feedback The second half of the book then makes connections between the theoretical issues presented in the first three chapters and the practical applications in the following chapters which provide lesson descriptions and assessment ideas for language learning contexts

with or without access to technology The book concludes with a list of tools and technologies for developing materials and activities as well as additional resources for professional development and further exploration of flipped English language learning

Innovation and Resource Management Strategies for Startups Development Baporikar, Neeta, 2024-02-26 In business success hinges not only on individual performance but on the vitality of the broader ecosystem in which a company

operates However crafting a thriving ecosystem alone is not enough to ensure success Equally vital is the ability to manage relationships within this ecosystem effectively harnessing its potential to enhance overall performance Moreover startups face the daunting challenge of scalability a pivotal factor in long term sustainability Yet achieving scalability often proves elusive due to complexities in resource management and ecosystem development Innovation and Resource Management Strategies for Startups Development is a comprehensive solution to the pressing issues of resource management ecosystem development and startup scalability This unique reference book delves deep into these critical aspects offering a wealth of ideas case studies and best practices alongside thorough theoretical analysis We recognize the undeniable influence of resource management and ecosystems on startup scalability and our objective is to enhance understanding in this domain By examining the powerful concepts that have shaped development policy and dissecting the role of resource management and ecosystem development in current discourse our book provides the necessary insights to identify inefficiencies and facilitate startup scalability It goes beyond mere theory fostering collaborative strategies among resources ecosystems and startups on a global scale ultimately contributing to social and economic development

South African Language Rights Monitor 2011 / Suid-Afrikaanse Taalregtemonitor 2011 Johan Lubbe,Theodorus du Plessis,2016-01-05 The SALRM 2011 provides a rich source of information on a range of language related subjects A prominent issue remains the changing of street and place names including the Pretoria Tshwane and Louis Trichardt Makhado sagas Language in education remains a thorny issue as medium of instruction at school and tertiary level and the proposal that passing an African language should be a requirement in order to obtain a tertiary degree in South Africa In terms of language legislation the draft version of the National Language Act was proposed The language of record in courts also received attention in the media

Theory and Method in Higher Education Research Jeroen Huisman,Malcolm Tight,2016-10-31 This volume of Theory and Method in Higher Education Research contains contemporary contributions to international debates regarding the application and development of theory and methodology in researching higher education

Resourcing an Agroecological Urbanism Chiara Tornaghi,Michiel Dehaene,2021-03-07 Foregrounding an innovative and radical perspective on food planning this book makes the case for an agroecological urbanism in which food is a key component in the reinvention of new and just social arrangements and ecological practices Building on state of the art and participatory research on farming urbanism food policy and advocacy in the field of food system transformation this book changes the way food planning has been conceptualised to date and invites the reader to fully embrace the transformative potential of an agroecological perspective Bringing in dialogue from both the rural and urban the producer and consumer this book challenges conventional approaches that see them as separate spheres whose problems can only be solved by a reconnection Instead it argues for moving away from a food in the city approach towards an urbanism perspective in which the economic and spatial processes that currently drive urbanisation will be unpacked and dissected and new strategies for changing those processes into more equal and just

ones are put forward Drawing on the nascent field of urban political agroecology this text brings together i theoretical re conceptualisations of urbanism in relation to food planning and the emergence of new agrarian questions ii critical analysis of experimental methodologies and performing arts for public dialogue reflexivity and food sovereignty research iii experiences of resourceful land management including urban land use and land tenure change and iv theoretical and practical exploration of post capitalist economics that bring consumers and producers together to make the case for an agroecological urbanism Aimed at advanced students and academics in agroecology sustainable food planning urban geography urban planning and critical food studies this book will also be of interest to professionals and activists working with food systems in both the Global North and the Global South

Confronting Global Climate Change

Mark Harris, 2019-06-07 This book offers a solutions based approach to climate change problems which potentially impinge on human beings within the tropics It largely comprises research articles with supplementary applications and illustrations The effects of atmospheric phenomena energy acquisition wind power CO2 sequestration are linked with soils aquatic life reducing deforestation rainwater harvesting and clay pot farming climate plant disease and food security to show that no area of life is untouched by the phenomenon of climate change It discusses specific problem areas and provides an overview of geotechnical and sustainable solutions to lessen the impact of climate

Why Mars W. Henry Lambright, 2014-06-10

Traces NASA's torturous journey to Mars from the flybys of the 1960s to landing rovers and seeking life today Mars has captured the human imagination for decades Since NASA's establishment in 1958 the space agency has looked to Mars as a compelling prize the one place beyond the Moon where robotic and human exploration could converge Remarkably successful with its roaming multi billion dollar robot Curiosity NASA's Mars program represents one of the agency's greatest achievements Why Mars analyzes the history of the robotic Mars exploration program from its origins to today W Henry Lambright examines the politics and policies behind NASA's multi decade quest illuminating the roles of key individuals and institutions along with their triumphs and defeats Lambright outlines the ebbs and flows of policy evolution focusing on critical points of change and factors that spurred strategic reorientation He explains Mars exploration as a striking example of big science and describes the ways a powerful advocacy coalition composed of NASA decision makers the Jet Propulsion Laboratory the Mars academic science community and many others has influenced governmental decisions on Mars exploration making it at times a national priority The quest for Mars stretches over many years and involves billions of dollars What does it take to mount and give coherence to a multi mission big science program How do advocates and decision makers maintain goals and adapt their programs in the face of opposition and budgetary stringency Where do they succeed in their strategies Where do they fall short Lambright's insightful book suggests that from Mars exploration we can learn lessons that apply to other large scale national endeavors in science and technology
