his own artistic vision but that he is crafting what the client wants That is not to say the results aren't artful and creative Both of those things are very important as Smith shows but the main goal as a successful professional photographer is to create portraits that the subject wants to buy Smith advises photographers to be aware of a subject's self image when creating the portrait being sure not to light them in a manner that is unflattering or distorted Success in creating salable portraits relies as much on understanding people and the way our self image functions as it does understanding the proper techniques of lighting First Smith discusses the differences between face types and what to be aware of when setting up the lighting for each Proper metering and placement of light source are essential to controlling your highlights your shadowing and the transition area in between Establishing a system for modifying your lighting setup for each subject is emphasized The concept of Camera Sight or visualizing the finished photo ahead of time to look for potential problem areas is very important As Smith admits this skill comes with experience Where he once had to take many test shots to pick out these issues he is now able to see them before he shoots a single frame This is a skill that develops over time with training and practice The author then explains the differences between shooting in a studio and shooting on location both indoors and outdoors Different equipment is required for each scenario but the equipment used for shooting outdoors can even differ depending on the time of day While the most ideal natural light occurs just after sunrise or just before sunset most customers do not want to have their portraits taken at 5am or late in the day So the photographer needs to be prepared to shoot in the harsh midday sun In addition to lighting the face the photographer must find usable light to illuminate the background properly Smith details the lighting system he uses for outdoor portraiture and presents it in the context of his shooting experiences While studio shoots provide greater levels of comfort and consistency compared to a location shoot there are still many things required to get that perfect shot Properly applying fill accent light and shadowing are just as important in the studio as they are on location Understanding the concepts of traditional lighting allows the photographer to consistently create studio portraits that will please any customer The most important part of the face to light properly is the eyes Smith explains in detail what factors a successful photographer must consider to get the final portrait every client wants Whether it is a difference in the size of the client's eyes or ears asymmetrical lips or a crooked nose there are ways to light these to correct the differences Using artistry and creative vision to adapt from the comfort of studio shoots to the complicated and diverse demands of location shoots Smith provides the reader with the tools to capture what the client wants every time

plain awkward presentation This visual sourcebook features a wide range of full length poses designed for men women teens kids and groups in the studio and on location Photographers will find examples of poses for subjects of all ages that work perfectly for any portrait style from reserved to edgy and fashion forward in seated standing and reclining presentations Featuring studio and location indoor and outdoor portraits from twenty heralded portrait pros this book will allow photographers to find a pose to re create with their client and adventurous shooters can use a sample portrait as a springboard for a new pose they conceptualize to suit their unique client or one of a kind portrait concept Complete with text on posing basics this book is an indispensable resource that you ll turn to over and over again *The Portrait Photographers Posing Guide* Nigel Holmes,2006-11-10 The classic Posing Guide Rules for posing people for portraits Drawn in cartoons making it easy to follow Serious invaluable advise on how to pose people in photographs Amateur Photographer *The Art of the Portrait* Rosanne Olson,2016-06-28 Rosanne Olson is a master at capturing exquisite portraits that speak to viewers intimately She is highly skilled at connecting with her clients devising a portrait concept that suits the personality of the person in front of the lens and optimally using posing composition and lighting and exposure techniques to achieve an evocative polished and memorable portrait In this book Olson shares her interpersonal and technical working habits She presents portraits of a wide range of subjects from kids to teens seniors to adult couples and groups and even pets For each portrait presented she discusses the decisions she made from the moment the subject stepped in front of the camera to the end of the session You ll get great insight into Olson s well oiled approach for photographing private portraits and commercial work With the targeted skills outlined in this book readers will approach each session with a new level of inspiration and competence [LNM Senior Posing Guide](#) Lindsey Martin,2017-08-15 A photographer s guide to posing seniors for their senior pictures Over a HUNDRED different poses all clear easy to show clients during a session
