Practice of Hope Néstor Oscar Míguez, 2012-06 In Not Like Those Who Have No Hope Nestor O Miguez brings the insights of historical critical study and political analysis together with incisive theological reflection Taking on European philosophical interpretations of Paul the North Atlantic consensus regarding social stratification in the Pauline churches and the distortions of rapture theology Miguez situates Paul's mission in the political context of Roman Thessalonica and reads his first letter in engagement with Latin American realities The result is a surprising rediscovery of Paul as an organic intellectual for whom hope is always a socially concrete reality *The Bonds of Freedom* Jake Subryan Richards, 2025-09-02 The story of the long fight for freedom of African captives rescued from the illegal slave trade only to be forced back into bondage The Bonds of Freedom tells the forgotten story of people seized from slave ships by maritime patrols liberated then forced into bonded labor between 1807 and 1880 Using extensive archival research from Sierra Leone South Africa Brazil Cuba the United Kingdom and the United States historian Jake Subryan Richards uncovers the contrasting ideas and practices of authoritarianism and freedom that empires and liberated Africans developed during the protracted end of the illegal slave trade Following the Africans' journeys from enslavement to liberation Richards recounts their capture and embarkation on ships that participated in the vast slave trade to Brazil and Cuba the maritime seizure of those ships and the adjudication that assigned freed captives to bonded labor The captives fought against their bondage as state agents limited their freedom of choice and movement The liberated Africans' story shows that far from following a straightforward path to freedom these men and women navigated anti-slave trade laws that both subjected them to authoritarian control and provided a domain for them to create their own visions of freedom Through meticulous research and engaging narrative Richards sheds light on their legal battles community building efforts and ongoing quest for justice and autonomy in the face of enduring challenges *Report of the Industrial Commission on Labor Legislation* United States. Commission, 1900 **Neoliberal Democratization and New Authoritarianism** Dennis C. Canterbury, 2019-06-04

Originally published in 2005 Domestic and foreign economic and political policies in the rich capitalist nations in the North and in the poor countries in the South are geared towards globalization and democratization Indeed the dominant view held by countries in the North is that globalization leads to democracy and vice versa and that in turn economic development will result from that process Thus many scarce resources are allocated to bring about globalization and democracy Exploring the

dynamics of change that allow for the persistence of authoritarian states in the Third World this illuminating book highlights certain aspects of democratization that have not been investigated fully Anyone interested in development politics and political sociology will draw a plethora of important theoretical insights into globalization authoritarianism and transition democratization from this original study Seventh-day Adventist Schools in China Daisy Butka-Swartout,1927 **Labor Relations Reference Manual, Volume 8** ,1942 **Paul and the Roman Imperial Order** Richard A. Horsley,2004-01-01

The five articles and Simon Price s response at the core of this book were originally papers delivered in a session of the Paul and Politics Group at the 2000 SBL Annual Meeting There are a number of special features that make this a special combination of articles on Paul in what is turning out to be a highly suggestive new perspective and context the ancient Roman imperial order First these articles are all informed by and respond in some way to the ground breaking work of Simon Price on the Roman imperial cult in Greek cities some of the very cities in which Paul carried out his mission Invited as a special guest of the SBL for the 2000 Annual Meeting Price was the respondent to these papers and interaction with him has aided the authors in their revisions The articles bring a rich variety of fresh perspectives to issues of the relation of Paul and the Roman imperial order including postcolonial theory political anthropological theory James C Scott postcolonial theory and feminist theory along with the new perspective on the imperial cult represented by Price This collection of articles thus stands at the cutting edge of new scholarship on Paul s mission and letters in his political and cultural context Contributors for this book include Robert Jewett Abraham Smith Neil Elliott Rollin A Ramsaran Efrain Agosto Erik Heen Jennifer Wright Knust and Simon R F Price Richard A Horsley is Distinguished Professor of Liberal Arts and the Study of Religion at the University of Massachusetts Boston and the author of *Paul and Politics* *Ekklesia* *Israel Imperium* *Interpretation* and *Paul and Empire* *Religion and Power in Roman Imperial Society*
