Slacking Adam Kissel, Rachel Alexander Cambre, Madison Marino Doan, 2025-05-06

Prestige no longer ensures substance at Ivy League schools students must navigate a maze of shallow politicized courses to uncover the rare gems of a classical education exposing the need for academic renewal This book is a banquet of the absurdities that Ivy League universities serve up to their students under the rubric of general education Anyone who wonders how the graduates of America's elite institutions come by their jaundiced view of our country should start here The few who refuse to slack are limited to the hard sciences and the few remaining excellent courses in the humanities Peter Wood President National Association of Scholars Ivy League universities can no longer be trusted to produce well educated students Even a cursory review of the course titles at top schools shows that these 320 000 plus diplomas may confer legacy prestige to graduates but not necessarily knowledge or wisdom At Cornell for example students can take Queer Girlhood Beyoncé Nation and Intersectional Disability Studies The course list at Yale includes Pop Sapphism and Comparative Settler Geographies At Princeton Shoes Penn offers Reality TV and Gender and Decolonizing French Food Even worse these courses actually fulfill general education requirements It is still possible to earn a great education at Princeton Harvard Yale Penn Columbia Brown Cornell or Dartmouth but doing so requires prudence and persistence In Slacking Adam Kissel Rachel Alexander Cambre and Madison Marino Doan dedicate one chapter to each Ivy League college providing specific information about the coursework that serious students should pursue to extract a real education from these decaying institutions Every chapter concludes with two course lists both of which meet the school's general education requirements One displays the worst collection of courses that an inveterate slacker could take to skate through the requirements for entertainment reinforcement of political biases and narrow specialization The other lists the best choice of courses a dedicated striver could take to acquire a well rounded content rich liberal education The contrast between the two sounds a rousing alarm bell for curriculum reform at America's best known colleges

worker on the ground as a lawyer at the United Nations or as an academic in a think tank has become not merely a livelihood but also a form of participation in world politics As a field peacebuilding has developed techniques for incorporating and training new members yet its internal politics also create the conditions of exclusion that often result in practical failures of the peacebuilding enterprise By providing a critical account of the social mechanisms that make up the peacebuilding field Goetze offers deep insights into the workings of Western domination and global inequalities *Resources in Education*, 1976
