*Directory of Energy Information Administration Models*, 1992      **Straight Up** Joseph J. Romm, 2010-04-08 In 2009 Rolling Stone named Joe Romm to its list of 100 People Who Are Changing America Romm is a climate expert physicist energy consultant and former official in the Department of Energy But it s his influential blog one of the Top Fifteen Green Websites according to Time magazine that s caught national attention Climate change is far more urgent than people understand Romm says and traditional media scientists and politicians are missing the story Straight Up draws on Romm s most important posts to explain the dangers of and solutions to climate change that you won t find in newspapers in journals or on T V      **Directory of Companies Required to File Annual Reports with the Securities and Exchange Commission Under the Securites Exchange Act of 1934, Alphabetically and by Industry Groups**, 1989      *Financial Disclosure Reports of Members of the U.S. House of Representatives for the Period Between January 1, 2005 to December 31, 2005* United States. growth dilemma can only be addressed through a transformation of the economic system A strong plea is made for abandoning GDP growth as the key objective for development The focus should instead be on a limited number of welfare indicators The trickle down concept is seriously questioned to be replaced by one of sufficiency Rich countries are called upon to hold back their material growth to leave room for a rising living standard among the poor Alternative business models are presented such as moving from products to services or towards a circular economy based on re use reconditioning and recycling all with the aim of facilitating sustainable development A Report to the Club of Rome *The Structure of the U.S. Petroleum Industry* Duane Chapman, United States.
