Message To The People:

Message to the People Tony Martin, 2022-04-05 In September 1937 three years before his death Marcus Garvey assembled a small group of his most trusted organizers For almost a quarter of a century he had led the Universal Negro Improvement Association at its peak the largest international mass movement in the history of African peoples Now he wanted to pass on the lessons he had learned to the group best suited to carry the struggle forward For one month he instructed this elite student body twelve hours a day seven days a week The sessions were secret and much of the instruction was not written down This fascinating distillation of a great leader s experience is published here for the first time

Message to the People Marcus Garvey, Tony Martin, 1986 *A to Z About Body Language* Jackson Yogarajah, A to Z about Body Language is written by an expert on body language and deception detection with over 25 years of teaching and deception detection experience The writer s expertise and deception detection services are often sought after by enforcement agencies including the Royal Malaysian Police Force in Malaysia This book is useful for anyone who wishes to avoid being deceived or for those seeking to benefit from their own body language Written in two parts it can help anyone learn simple ways to read body language detect deception and take advantage of their very own body language The author includes a chapter on his observation of the video clip and body language of Captain Zaharie Ahmad Shah who piloted the missing MH 370 The clip in the airport at the time of his departure 7th March 2014 gives convincing and dramatic body language signs and later clues to the disappearance of MH 370 The author s further research on the ill fated flight points to the disappearance of MH 370 to Captain Zaharie Ahmad Shah The writer also rebuts author Florence de Changy s latest book that MH370 was shot down into the sea and that the disappearance was a massive cover up by the Malaysian authorities The book benefits you in more ways than you ever thought about body language by learning to spot body language and using it in the best ways for your own advantage You will also learn more about your body language and the subconscious mind and how to use its power to make you a better person Crossing your arms may be viewed somewhat negatively by some but not if you know its significance and its benefits If you change the way you use your arms and if you understand your habit mind which is your subconscious mind you can be a better person If you are a school teacher you can use body language to help your class of boisterous children to be calm and focused By requesting these children to cross their arms and legs for just two to three minutes these children s anxieties and restlessness would vanish and they would be as calm as after the storm The second part of the book teaches you simple ways to escape from been deceived or scammed out of your hard earned money betrayed by a trusted friend colleague relative or even your spouse The simple lie detection skills highlighted within are the most valuable aids this book will provide you It is a treasured skill as you can never be guaranteed if people are lying until you ask the right questions observe and listen to the how to that is taught in this book It is not hard to determine truths analyze body language and verbal language if you know what you are looking and listening for
