*Corona-Fascism* Alu Axelman,2021-06-02 In Corona Fascism paramedic and political commentator Elliot Alu Axelman delivers a provocative examination of how the COVID 19 pandemic transformed America into what he considers a surveillance state Drawing on his medical background and libertarian principles Axelman methodically challenges official narratives surrounding the virus questioning inflated statistics media fear campaigns and the unprecedented governmental

powers exercised during the pandemic From mask mandates to business closures from contact tracing to vaccine passports Axelman argues that politicians from both parties exploited a public health crisis to eliminate privacy restrict personal liberty and enrich themselves and their corporate allies The book dissects how emergency powers bypassed legislative processes how statistics were manipulated and how dissenters were silenced in what Axelman describes as the largest assault on American freedom in history Through careful analysis of CDC data firsthand experience in emergency medicine and examination of economic consequences Axelman presents his case that the response to COVID 19 was disproportionate to the actual threat and designed to serve political agendas rather than public health He shows how pandemic policies were selectively enforced with lockdown violators punished while certain protest movements received exemptions Written during the height of pandemic restrictions this timely polemic calls for resistance against what the author sees as an emerging biomedical security state that threatens to permanently alter the relationship between citizens and government If you enjoyed The Great Reset by Marc Morano COVID 19 and the Global Predators by Peter Breggin or The Real Anthony Fauci by Robert F Kennedy Jr you ll love Corona Fascism

Tomilovskaya, Nora Petersen, Jancy McPhee, Satoshi Iwase, Nandu Goswami, Steven Platts, 2023-09-08 The effects of microgravity on the human organism have been studied for over 60 years The experience of short and long term space flights

revealed alterations in multiple physiological systems either in the course of the flight or afterward. Some of these changes represent serious risks for crew health and functional capacity. This fact served as the trigger for multiple countries with space program participants to develop spaceflight countermeasures and medical support systems. These activities are intended to counteract space flight effects such as axial and support unloading, muscle disuse, monotony, fluid redistribution, sensory deficit, etc. Some countermeasures have been adapted from Earth medicine and sports, while others have been created especially for space flights. Many of the observed space flight effects have similarities to conditions seen on Earth, such as decrease of motor activity in aging people, immobilized patients, and professions associated with forced physical inactivity and isolation. Thus, many space countermeasures and medical support systems can be applied in Earth medicine and rehabilitation. For example, countermeasures like loading suits, lower body negative pressure suits, electromyostimulation of various regimens, water salt supplements, vestibular training means, etc. have been used in Earth medicine and sports conditioning over the last 20 years.
