British Library (London),Jim Emmett,1981   **The Foundations of Modern Freemasonry** Ric Berman MA,2022-01-01
Following the appointment of its first aristocratic Grand Masters in the 1720s and in the wake of its connections to the
scientific Enlightenment Free and Accepted Masonry became part of Britain s national profile and the largest and most
influential of Britain s extensive clubs and societies The organisation did not evolve naturally from the mediaeval guilds and
religious orders that pre dated it but was reconfigured radically by a largely self appointed inner core at London s most
influential lodge the Horn Tavern Freemasonry became a vehicle for the expression of their philosophical and political views
and the Craft attracted an aspirational membership across the upper middling and gentry Through an examination of
previously unexplored primary documentation Foundations contributes to an understanding of contemporary English political
and social culture and explores how Freemasonry became a mechanism that promoted the interests of the Hanoverian
establishment and connected the metropolitan and provincial elites The book explores social networks centred on the
aristocracy parliament the learned and professional societies and the magistracy and provides pen portraits of the key
individuals who spread the Masonic message Foundations and Schism Sussex Academic 2013 have been described as the
most important books on English Freemasonry published in recent times providing a precise social context for the invention
of English Freemasonry Berman s analysis throws a new and original light on the formation and development of what rapidly
became a national and international phenomenon   *Explorations 1* E S Carpenter,Marshall McLuhan,2016-09-22 The entire

Carpenter and Marshall McLuhan was the first postwar journal to engage directly with the new grammars of mid century
new media of communication Launched in Toronto in 1953 at the very moment that television made its national debut in
Canada Explorations presented a mosaic of approaches to contemporary media culture and became the site in which
McLuhan and Carpenter first formulated their most striking insights about new media in the electric age The extraordinary
breadth of contributions to Explorations from leading thinkers across the arts humanities social and natural sciences makes
this journal a founding publication in the now burgeoning field of media studies Originally funded by a Ford Foundation grant
the eight coedited issues of Explorations ran from 1953 to 1957 and are reprinted here for the first time in sixty years For a
