Be sure to read the prospectus carefully before deciding whether to invest.

Allowance: Minimum Tax

A method of calculating income tax that disallows certain deductions, credits, and exclusions. This was intended to ensure that individuals, trusts, and estates that benefit from tax preferences do not escape all federal income tax liability. People must calculate their taxes both ways and pay the greater of the two.

Annuity contracts are usually purchased from banks, credit unions, brokerage firms, or insurance companies. Any guarantees are contingent on the claim-paying ability of the issuing company.

Anything owned that has monetary value.

Asset Allocation

The process of repositioning assets in a portfolio to maximize potential return for a particular level of risk. This process is usually done using the historical performance of the asset classes within sophisticated mathematical models. Asset allocation does not guarantee against loss; it is a method used to help manage investment risk.

A category of investments with similar characteristics.

The examination of the accounting and financial documents of a firm by an objective professional. The audit is done to determine the records' accuracy, consistency, and conformity to legal and accounting principles.

The return and principal value of mutual funds fluctuate with changes in market conditions. Shares, when sold, may be worth more or less than their original cost. Mutual funds are sold by prospectus. Please consider the investment objectives, risks, charges, and expenses carefully before investing. Book Value

The net value of a company's assets, less its liabilities and the liquidation price of its preferred issues. The net asset value divided by the number of shares of common stock outstanding equals the book value per share, which may be higher or lower than the stock's market value.

When the stock market appears to be advancing overall, it is said to be a bull market.

Buy-Sell Agreement

A buy-sell agreement is an arrangement between two or more parties that obligates one party to buy the business and another party to sell the business upon the death, disability, or retirement of one of the owners.

Capital Gain or Loss

The difference between the sales price and the purchase price of a capital asset. When that difference is positive, the difference is referred to as a capital gain. When the difference is negative, it is a capital loss.
