Gandhi's Pilgrimage Of Faith Darkness:

Gandhi's Pilgrimage of Faith Uma Majmudar, 2012-02-01 Millions around the world revere Mahatma Gandhi yet only a few know the man Mohandas Gandhi and the internal journey of his soul This pioneering book fills the spiritual void in Gandhian literature by focusing on the soul and the substance of the man Uma Majmudar shows that contrary to popular belief Gandhi's rise to greatness was not meteoric it was rather a continuous process of faith development punctuated by conflicts crises and turning points Using James W Fowler's theory of Stages of Faith as a guide Majmudar undertakes the first developmental study to analyze the fundamental role of faith in transforming Gandhi's life She proposes that the power that nourished Gandhi's soul was his ever growing faith in the ultimate triumph of Truth and in the innate Godliness of the human soul Along with making an invaluable contribution to numerous cross cultural disciplines the book also offers something special to those wishing to embark on their own faith developmental journey guided by Gandhi's example Majmudar wants us to touch and feel Gandhi He is not on a pedestal he is not made of granite or bronze he is warm and vulnerable from the Foreword by Rajmohan Gandhi

Gandhi's Pilgrimage of Faith Uma Majmudar, 2005-07-05 Documents the lifelong journey of faith full of challenges along the way that made Gandhi the enlightened spiritual leader we revere

Wired to Care: How Companies Prosper When They Create Widespread Empathy Patnaik, 2009 Executives often know little about the people who buy their companies products and services This is not surprising To study people you must care about them However most companies eliminate empathy from their operations In essence they proceed as if they have calculating survival bent reptile brains Profits drive everything This is an odd disconnect because corporate livelihoods depend on people not lizards and people's brains are hardwired to be empathetic Dev Patnaik writing with Peter Mortensen shows why firms that connect empathetically with their customers do better financially He insists today's cold hearted bottom line business world has room for caring companies and he points to IBM Nike and Harley Davidson as examples The fact that empathy is also a strong business strategy is icing on the cake getAbstract suggests this fine book to CEOs marketing officers and other executives who want to build their business by acting on their respect for their customers

As Patnaik explains on his blog Empathy isn't about having a visionary leader. It's about making customer information an easy everyday and experiential part of working at your company. **Give Your Business a Heart (Collection)** Dev Patnaik, Jagdish N. Sheth, Rajendra Sisodia, David Wolfe, 2014-02-28

Wired to Care How Companies Prosper When They Create Widespread Empathy first edition explains how companies can challenge themselves to meet their customers more than halfway. The author's original approach walks helps readers shift their thinking and their companies thinking beyond the borders of the organization. The author begins by having the reader explore their own mental models and maps explores how size and distance have disconnected companies from their true customers shows how we are wired to care in our brains and provides a way for companies to drive growth by understanding this truth about their customers. We are them and they are us. Today's best companies get it. From retail to finance and industries in between the organizations who recognize that doing good is good business are becoming the ultimate value creators. They're changing their culture and generating every form of value that matters emotional experiential social and financial. And they're doing it for all their stakeholders. Not because it's simply politically correct because it's the only path to long term competitive advantage. These are the Firms of Endearment. Companies people love doing business with working for and collaborating with as partners. Since the publication of the First Edition the concept of corporate social responsibility has become embraced as a valid important and profitable business model. It is a trend that has transformed the workplace and corporate world. This Second Edition updates the examples cases and applications from the original edition giving readers insight into how this hallmark of the modern organization is practiced today.

Wired to Care Dev Patnaik, 2009-01-09 In this essential and illuminating book top business strategist Dev Patnaik tells the story of how organizations of all kinds prosper when they tap into a power each of us already has empathy the ability to reach outside of ourselves and connect with other people. When people inside a company develop a shared sense of what's going on in the world they see new opportunities faster than their competitors. They have the courage to take a risk on something new. And they have the gut level certitude to stick with an idea that doesn't take off right away. People are Wired to Care and many of the world's best organizations are too. In pursuit of this idea Patnaik takes readers inside big companies like IBM Target and Intel to see widespread empathy in action. But he also goes to farmers markets and a conference on world religions. He dives deep into the catacombs of the human brain to find the biological sources of empathy. And he spends time on both sides of the political aisle with James Carville the Ragin' Cajun and John McCain a national hero to show how empathy can give you the acuity to cut through a morass of contradictory information. Wired to Care is a compelling tale of the power that people have to see the world through each other's eyes told with passion for the possibilities that lie ahead if leaders learn to stop worrying about their own problems and start caring about the world around them. As Patnaik notes in addition to its considerable economic benefits increasing empathy for the people you serve can have a personal impact as well. It just might help you to have a better day at work.
