Garden Cities Sarah Rutherford

Sarah Dewis, Brent Elliott

Garden Cities Sarah Rutherford:

Garden Cities Sarah Rutherford, 2014-02-10 Garden Cities the phrase is redolent of Arts and Crafts values and nineteenth century utopianism But despite being the culmination of a range of influential movements and having global influence themselves in fact there were only ever two true self contained Garden Cities in England far more numerous were Garden Suburbs and Villages Crystallised in England by social visionary Ebenezer Howard and executed in many cases by planners and architects Barry Parker and Raymond Unwin the concept arose from nineteenth century industrial settlements like Port Sunlight and earlier Saltaire and Akroyden and also from the City Beautiful movement in the US The settlements were designed to promote healthy and comfortable individual and community life as well as supporting commerce and industry and were and are instantly and attractively recognisable This book is a beautifully illustrated guide to the movement as a whole from its earliest influences through practical difficulties in implementation to the continuing vitality of the communities which are its legacy

The Arts and Crafts Garden Sarah Rutherford, 2013-07-10 The Arts and Crafts Movement espoused values of simplicity craftsmanship and beauty quite counter to Victorian and Edwardian industrialism Though most famous for its architecture furniture and ornamental work between the 1890s and the 1930s the movement also produced gardens all over Britain whose designs redolent of a lost golden era had worldwide influence These designs by luminaries such as Gertrude Jekyll and Sir Edwin Lutyens were engaging and romantic combinations of manor house garden formalism and the naive charms of the cottage garden but from formally clipped topiary to rugged wild borders nothing was left to chance Sarah Rutherford here explores the winding paths and meticulously shaped hedges the gazebos and gateways the formal terraces and the billowing border plantings that characterised the Arts and Crafts garden and directs readers and gardeners to where they can visit and be inspired by these beautiful works of art

Gilded Age Entrepreneur Simon Cordery, 2025-09-15 Simon Cordery's *Gilded Age Entrepreneur* illuminates the fascinating and chaotic business world of Albert Pullman The influential but little known older brother of George Pullman and the craftsman of the family Albert designed the first luxurious Pullman railroad cars and hosted

promotional trips to show them off In those heady early days he met national business and political leaders and hired the first Pullman porters Albert and George made a formidable team but as the Pullman Company grew Albert's role shrank He turned to his own investment portfolio often with disastrous results Beginning with the industrial laundry that cleaned sleeping car linens Albert appeared before the Supreme Court after a catastrophic insurance investment ran afoul of federal banking regulations and failed in an attempt to corner wheat futures With evermore unsuccessful speculations Albert was tempted by extralegal land sales and entered the silver mining game Finally his own family in crisis and his relationship with George shattered Albert Pullman launched into one last round of adventurous investments with mixed results Gilded Age Entrepreneur demonstrates that Albert Pullman embodied the small time investors who were legion after the Civil War From banking and insurance to manufacturing and mining a host of hopeful dreamers like Albert Pullman fueled the circulation of capital by forging political connections creating and losing businesses issuing shares and longing for profit

The Single Woman, Modernity, and Literary Culture Emma Sterry, 2017-06-22 This book situates the single woman within the evolving landscape of modernity examining how she negotiated rural and urban worlds explored domestic and bohemian roles and traversed public and private spheres In the modern era the single woman was both celebrated and derided for refusing to conform to societal expectations regarding femininity and sexuality The different versions of single women presented in cultural narratives of this period including the old maid odd woman New Woman spinster and flapper were all sexually suspicious The single woman however was really an amorphous figure who defied straightforward categorization Emma Sterry explores depictions of such single women in transatlantic women's fiction of the 1920s to 1940s Including a diverse selection of renowned and forgotten writers such as Djuna Barnes Rosamond Lehmann Ngaio Marsh and Eliot Bliss this book argues that the single woman embodies the tensions between tradition and progress in both middlebrow and modernist literary culture

Welwyn & Welwyn Garden City in 50 Buildings Paul Rabbitts, Peter Jeffree, 2021-11-15 A fascinating exploration of the architectural heritage of Welwyn and Welwyn Garden City in Hertfordshire

England's Magnificent Gardens Roderick Floud, 2021-06-15 An altogether different kind of book on English gardens the first of its kind a look at the history of England's magnificent gardens as a history of Britain itself from the seventeenth century gardens of Charles II to those of Prince Charles today In this rich revelatory history Sir Roderick Floud one of Britain's preeminent economic historians writes that gardens have been created in Britain since Roman times but that their true growth began in the seventeenth century by the eighteenth century nurseries in London took up 100 acres with ten million plants that were worth more than all of the nurseries in France combined Floud's book takes us through more than three centuries of English history as he writes of the kings queens and princes whose garden obsessions changed the landscape of England itself from Stuart Georgian and Victorian England to today's Windsors Here are William and Mary who brought Dutch gardens and bulbs to Britain William who twice had his entire garden lowered in order to see the river from his apartments and his successor

Queen Anne who like many others since vowed to spend little on her gardens and instead spent millions Floud also writes of Frederick Prince of Wales the founder of Kew Gardens who spent more than 40 000 on a single twenty five foot tulip tree for Carlton House Queen Victoria who built the largest most advanced and most efficient kitchen garden in Britain and Prince Charles who created and designed the gardens of Highgrove inspired by his boyhood memories of his grandmother s gardens We see Sarah Duchess of Marlborough who created a magnificent garden at Blenheim Palace only to tear it apart and build a greater one Deborah Duchess of Devonshire the savior of Chatsworth s 100 acre garden in the midst of its 35 000 acres and the gardens of lesser mortals among them Gertrude Jekyll and Vita Sackville West both notable garden designers and writers We see the designers of royal estates among them Henry Wise William Kent Humphrey Repton and the greatest of all English gardeners Capability Brown who created the 150 acre lake of Blenheim Palace earned millions annually and designed more than 170 parks many still in existence today We learn how gardening became a major catalyst for innovation central heating came from experiments to heat greenhouses with hot water pipes how the new iron industry of industrializing Britain supplied a myriad of tools mowers pumps and the boilers that heated the greenhouses and finally Floud explores how gardening became an enormous industry as well as an art form in Britain and by the nineteenth century was unrivaled anywhere in the world The Urban Archetypes of Jane Jacobs and Ebenezer Howard Abraham Akkerman,2020-01-09

Ebenezer Howard an Englishman and Jane Jacobs a naturalized Canadian personify the twentieth century s opposing outlooks on cities Howard had envisaged small towns newly built from scratch fashioned on single family homes with small gardens Jacobs embraced existing inner city neighbourhoods emphasizing the verve of the living street From Howard s idea the American Dream of garden suburbs had emerged yet his conceptualization of a modern city received criticism for being uniform and alienated from the rest of the city Similarly at the turn of the new century Jacobs inner city neighbourhoods came to be recognized as the result of commodification vacillating between poverty and newly discovered hubs of urban authenticity Presenting Howard and Jacobs within a psychocultural context The Urban Archetypes of Jane Jacobs and Ebenezer Howard addresses our urban crisis in the recognition that city form is a gendered allegorical medium expressing femininity and masculinity within two founding features of the built environment void and volume Both founding contrasts bring tensions but also the opportunities of fusion between pairs of urban polarities human scale against superscale gait against speed and spontaneity against surveillance Jacobs and Howard in their respective attitudes have come to embrace the two ancient archetypes the Garden and the Citadel leaving it to future generations to blend their two contrarian stances

Suburban Gardens Twigs Way,2020-10-15 The suburban garden has introduced millions to the hobby of gardening and here for the first time is the story of Britain s most numerous and most beloved type of garden *Leisure, Voluntary Action and Social Change in Britain, 1880-1939* Robert Snape,2018-04-05 In the final decades of the nineteenth century modernizing interpretations of leisure became of interest to social policy makers and cultural critics producing a discourse of

leisure and voluntarism that flourished until the Second World War The free time of British citizens was increasingly seen as a sphere of social citizenship and community building Through major social thinkers including William Morris Thomas Hill Green Bernard Bosanquet and John Hobson leisure and voluntarism were theorized in terms of the good society In post First World War social reconstruction these writers remained influential as leisure became a field of social service directed towards a new society and working through voluntary association in civic societies settlements new estate community centres village halls and church based communities This volume documents the parallel cultural shift from charitable philanthropy to social service and from rational recreation to leisure teasing out intellectual influences which included social idealism liberalism and socialism Leisure Robert Snape claims has been a central and under recognized organizing force in British communities Leisure Voluntary Action and Social Change in Britain 1880 1939 marks a much needed addition to the historiography of leisure and an antidote to the widely misunderstood implications of leisure to social policy today

Botanic Gardens Sarah Rutherford, 2015-02-10 Across the world hundreds of botanic gardens combine scientific research conservation and beauty with public access with Kew Gardens alone attracting around one million visitors a year For centuries they have variously focused on cultivating medicinal and exotic plants introducing lucrative crops such as tea and rubber to new countries preserving international plant collections scientific classification and research or have combined all these things Sarah Rutherford here tells their story from the sixteenth century up to their long heyday in the last two hundred years She explains the gardens design and architecture the personalities and institutions associated with them their important role in research and conservation and their appeal to millions of visitors Landscape Gardens Sarah Rutherford, 2017-09-15 The landscape garden is arguably Britain's greatest contribution to Western Art establishing an artificial style of garden that has defined what we consider to be a natural environment This is the perfect introduction to the subject *Nineteenth-Century Gardens and Gardening* Sarah Dewis, Brent Elliott, 2024-06-19 This volume is the third in a six volume collection that brings together primary sources on gardens and gardening across the long nineteenth century Economic expansion empire the growth of the middle classes and suburbia the changing role of women and the professionalisation of gardening alongside industrialisation and the development of leisure and mass markets were all elements that contributed to and were influenced by the evolution of gardens It is a subject that is both global and multidisciplinary and this set provides the reader with a variety of ways in which to read gardens through recognition of how they were conceived and experienced as they developed Material is primarily derived from Britain with Europe USA Australia India China and Japan also featuring and sources include the gardening press the broader press government papers book excerpts and some previously unpublished material *Victorian Cemeteries and the Suburbs of London* Gian Luca Amadei, 2021-12-19 This book explores how Victorian cemeteries were the direct result of the socio cultural economic and political context of the city and were part of a unique transformation process that emerged in London at the time The book

shows how the re ordering of the city s burial spaces along with the principles of health and hygiene were directly associated with liberal capital investments which had consequences in the spatial arrangement of London Victorian cemeteries in particular were not only a solution for overcrowded graveyards they also acted as urban generators in the formation London s suburbs in the nineteenth century Beginning with an analysis of the conditions that triggered the introduction of the early Victorian cemeteries in London this book investigates their spatial arrangement aesthetics and functions These developments are illustrated through the study of three private Victorian burial sites Kensal Green Cemetery Highgate Cemetery and Brookwood Cemetery The book is aimed at students and researchers of London history planning and environment and Victorian and death culture studies

Capability Brown Sarah Rutherford,2016-04-04 One of the most remarkable men of the 18th century Lancelot Capability Brown was known to many as The Omnipotent Magician who could transform unpromising countryside into beautiful parks that seemed to be only the work of nature His list of clients included half the House of Lords six Prime Ministers and even royalty Although his fame has dimmed we still enjoy many of his works today at National Trust properties such as Croome Park Petworth Berrington Stowe Wimpole Blenheim Palace Highclere Castle location of the ITV series Downton Abbey and many more In *Capability Brown* author and garden historian Sarah Rutherford tells his triumphant story uncovers his aims and reveals why he was so successful Illustrated throughout with colour photographs of contemporary sites historical paintings and garden plans this is an accessible book for anyone who wants to know more about the man who changed the face of the nation and created a landscape style which for many of us defines the English countryside

Newsletter Garden History Society (Great Britain),1997

The Horticulturist ,2016

Atlanta's Oakland Cemetery Ren Davis,Helen Davis,2012 Through engaging narrative rich photography archival images and detailed maps a versatile guide to Atlanta s oldest public cemetery is a great way to tour the cemetery s landscape of remembrance as well as a unique way to explore Atlanta s history Original

Street Trees in Britain Mark Johnston,2017-07-31 The trees which line many of the streets in our towns and cities can often be regarded as part of a heritage landscape Despite the difficult conditions of an urban environment these trees may live for 100 years or more and represent living history in the midst of our modern streetscapes This is the first book on the history of Britain s street trees and it gives a highly readable authoritative and often amusing account of their story from the tree lined promenades of the seventeenth century to the majestic boulevards that grace some of our modern city centers The impact of the Victorian street tree movement is examined not only in the major cities but also in the rapidly developing suburbs that continued to expand through the twentieth century There are fascinating descriptions of how street trees have helped to improve urban conditions in spa towns and seaside resorts and also in visionary initiatives such as the model villages garden cities garden suburbs and new towns While much of the book focuses on the social and cultural history of our street trees the last three chapters look at the practicalities of how these trees have been engineered into concrete landscapes This includes the many threats to street

trees over the years such as pollution conflict with urban infrastructure pests and diseases and what is probably the greatest threat in recent times the dramatic growth in car ownership Street Trees in Britain will have particular appeal to those interested in heritage landscapes urban history and the natural and built environment Some of its themes were introduced in the author s previous work the widely acclaimed Trees in Towns and Cities A History of British Urban Arboriculture

Constructing Townscapes Lisa C. Tolbert, 1999 Constructing Townscapes Space and Society in Antebellum Tennessee
