

## Problem 11: Together II

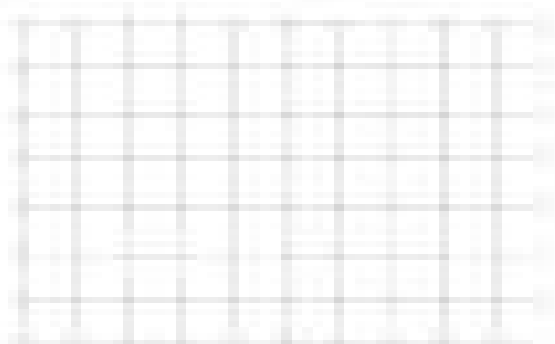

Water testing is generally recommended before construction starts on your system for its water-related features. For example, on weekends, Captain takes water samples and considering both independent and dependent. The next day half of the residents call someone to fix system (all day).

Repeat this week day. Captain's body structure half of the residents in her system have the day before. Repeat this pattern using the table and graph the relationships.

11. Table of Data

Number of Days (After Saturday)	Log of Residents (in Captain's system)

12. Graph of Data

13. What are the independent and dependent variables in the problem situation?

14. What are the domain and range of the problem situation?

15. Is the graph of the data increasing, decreasing?
