(Canadian) Heather Graves, Roger Graves, 2011-12-20 A Strategic Guide to Technical Communication incorporates useful and specific strategies for writers to create aesthetically appealing and usable technical documentation. These strategies have been developed and tested on a thousand students from a number of different disciplines over twelve years and three institutions. The second edition adds a chapter on business communication, reworks the discussion on technical style, and expands the information on visual communication and ethics into free-standing chapters. Particular attention is paid throughout to the needs of Canadian students **Create a Great Quality System In Six Months** Cathy

Balding, 2013-08-28 Are you looking for a quality system that drives great experiences for your consumers and your staff? Create a Great Quality System In Six Months. A blueprint for building the foundations of a great consumer experience is a step-by-step, month-by-month blueprint for building and implementing a quality system that staff will want to use to create a great consumer experience for every person every time. The 3P quality system blueprint is based on the literature, applied research, and real-world experience that formed the basis of my first book, *The Strategic Quality Manager*. It builds in, from the start, instead of developing your quality system and then starting on the long journey to gaining staff cooperation. Create a Great Quality System does both at once, merging quality mechanics with quality mindsets to achieve great results for consumers. CGQS is primarily written for health and aged care, but the principles and steps apply equally to other service industries such as education and hospitality **National Association of Broadcasters Engineering Handbook** Graham A. Jones, David H. Layer, Thomas G. Osenkowsky, 2013-04-26 The NAB Engineering Handbook provides detailed information on virtually every aspect of the broadcast chain, from news gathering, program production, and postproduction through master control and distribution, links to transmission, antennas, RF propagation, cable, and satellite. Hot topics covered include HD Radio, HDTV, 2 GHz broadcast auxiliary services, EAS workflow, metadata, digital asset management, advanced video and audio compression, audio and video over IP, and Internet broadcasting. A wide range of related topics that engineers and managers need to understand are also covered, including broadcast administration, FCC practices, technical standards, security, safety, disaster planning, facility planning, project management, and engineering management. Basic principles and the latest technologies and issues are all addressed by respected professionals with first-hand experience in the broadcast industry and manufacturing. This edition has been fully revised and updated with 104 chapters and over 2000 pages. The Engineering Handbook provides the single most comprehensive and accessible resource available for engineers and others working in production, postproduction, networks, local stations, equipment manufacturing, or any of the associated areas of radio and television.

How to Be a Brilliant SENCO Helen Curran, 2019-06-18 Helen Curran's invaluable book aims to support new and experienced SENCOs with the task of developing and leading special educational needs provision and inclusive practice.

through the exploration of practical strategies and approaches This book takes a pragmatic approach to the issues which have historically been associated with the role of the SENCO namely a lack of time a lack of resources and often a lack of seniority The book seeks to provide SENCOs with tried and tested ideas and strategies to support both the operational and strategic aspects of the role to help SENCOs develop their role as a leader in school The book covers the following areas The SENCO role in policy and practice The SENCO as a leader Developing relationships with pupils and parents Challenges and opportunities within the role of SENCO A must read for any SENCO this book draws upon case studies and real life examples considering the ways in which SENCOs can shape and develop the status of not only their role but also SEN and inclusive provision in their setting
