Title of Essay (Centered, same size font)

All essays written in MLA format need to include the information above and should be typed, double spaced, with 12 point, Times New Roman font. Make sure to not have an extra space between paragraphs, which is something that must be changed in the settings; otherwise, Microsoft Word will automatically put extra spaces between paragraphs. To make this change, click on the "Paragraph" drop arrow, check the box that reads "don't add space between paragraphs of the same style," and make sure the spacing before and after boxes are set to zero. Lastly, all margins of the essay should be one inch, which is the default setting for Microsoft Word.

MLA format requires that all sources be cited both within the text and on a works cited page that should appear at the end of the essay. Sources include quotations, opinions, paraphrases, and often other forms of information that originate from another source. In-text citations require author last name, if available, and page number, if source includes one. If no author name can be found (this is sometimes the case with internet sources), the title of the source needs to be included in the text. This information can either be placed in the sentence itself, or in parentheses after the information is given like this: (Merk 42). When the information is placed in parentheses, it is called a parenthetical citation. Page numbers should always be cited parenthetically.

The first paragraph of every essay should introduce the topic and tone of the essay. The

Writing for College: the Eight Step Program to Writing Academic Argument Papers Using the Template Method Rebecca Smith, 2012-04-13 Writing for College the Eight Step

Program to Writing Academic Argument Papers Using the Template Method is designed to help students who have been needlessly struggling with writing for their college classes because they fail to understand how college writing differs from other types of writings. This book has two goals: One to provide you the student with a template to follow in composing your own standard academic essay and two to explain how and why you should follow the process of producing original researched academic essays when trying to prove competency in English writing in colleges and universities. You know how to write what you need; are the rhetorical skills to help you write better. This book can help. The Bedford Guide for College Writers with Reader, Research Manual, and Handbook X. J. Kennedy, Dorothy M. Kennedy, Marcia F. Muth, 2011-01-06. With its process-oriented rhetoric, provocative thematic reader, up-to-date research manual, and comprehensive handbook, The Bedford Guide for College Writers gives your students the tools they need to succeed as writers, all in one book. Each of the book's four main components has been carefully developed to provide an engaging, well-coordinated guide for student writers. This edition's new, more open design and sharper focus on active learning do even more to help students develop transferable skills. The Bedford Guide for College Writers prepares students to be the confident, resourceful, and independent writers they will need to be.

Research Paper Writing Guide for Criminal Justice and Forensic Investigation Scholars Michael Kane, 2015-06-10. This book contains the necessary information for college students to write successful research papers. Most research textbooks stop short at describing the step-by-step process of building and presenting research papers. This book does not. The textbook's design walks students through the logical process of building research papers and presenting research findings, both orally and in writing. Topics include APA Writing Guide and Paper Requirements, The Purpose Statement, Citing in APA Style, What is a Scholarly Journal, The Literature Review, Critical Thinking, Analysis, Synthesis, and Evaluation, The Oral Presentation, Completing the Paper. The textbook serves as a primary textbook for courses involving research methods and paper writing or serves as an effective supplement to courses with major research paper components. The textbook contains several practical exercises and helpful tables as well.

The Bedford Guide for College Writers with Reader, Research Manual, and Handbook with 2009 MLA and 2010 APA Updates X. J. Kennedy, Dorothy M. Kennedy, Marcia F. Muth, 2010-04. When it was first published twenty years ago, The Bedford Guide for College Writers brought a lively and innovative new approach to the teaching of writing. Since that time, authors X. J. and Dorothy M. Kennedy have won praise for their friendly tone and their view apparent on every page of the text: that writing is the usually surprising, often rewarding art of thinking while working with language. More recently, experienced teacher and writer Marcia F. Muth joined the author team, adding more practical advice to help all students, even those underprepared for college work, become successful academic writers. While retaining the highly praised Kennedy touch, The Bedford Guide continues to evolve to meet classroom needs. The new edition does even more to build essential academic writing skills with expanded coverage of audience analysis, source-based writing, argumentation, and reasoning, and more.
