

The background of the cover is a microscopic view. It features numerous red blood cells, which are biconcave and reddish-orange, scattered across the field. Interspersed among them are several blue, spherical virus-like particles. These particles have a textured, bumpy surface and several long, thin, spike-like projections extending from their periphery. The overall color palette is dominated by reds and oranges from the blood cells, and blues and teals from the virus-like structures.
