Innovative strategic planning is an important step toward achieving economic stability and global sustainability. This can best be achieved through effective international cooperation and digitalization of activities. Societal and global processes designed to address global crises and other threats call for the opportunity to use innovative internationalization practices. Innovative Strategic Planning and International Collaboration for the Mitigation of Global Crises provides relevant theoretical frameworks and current empirical research findings in the field of international strategic management. Covering topics such as digital competencies, socio-economic injustice, and tourism, this book is an essential resource for strategic management professionals, researchers, students, educators in K-12 and higher education, academicians, and global leaders. **Lean**

Enterprise Software and Systems Brian Fitzgerald, Kieran Conboy, Ken Power, Ricardo Valerdi, Lorraine Morgan, Klaas-Jan Stol, 2013-11-26. This book contains the refereed proceedings of the 4th International Conference on Lean Enterprise Software and Systems LESS 2013 held in Galway, Ireland, in December 2013. LESS fosters interactions between practitioners and researchers by joining the lean product development and the agile software development communities in a highly collaborative environment. Each year, the program combines novelties and recent research results that make new ideas thrive during and after the conference. This year, the conference agenda was expanded to incorporate topics such as portfolio management, open innovation, and enterprise transformation. The 14 papers selected for this book represent a diverse range of experiences, studies, and theoretical achievements. They are organized in four sections: on lean software development, quality, and performance; case studies; and emerging developments. *Summary: Lean Analytics* BusinessNews
