20/11/16

What is a sociological imagination?

- Links private experiences and wider social issues
- Term coined by C. Wright Mills who said: "Neither the life of an individual nor the history of a society can be understood without understanding both" (1983:9).
- "[People] cannot cope with their personal troubles in such a way as to control the structural transformations that usually lie behind them" (1983:10)

Both the individual and the society must be understood. historical / contextual

What is a sociological imagination?

- Mills says we must ask certain questions such as:
- What is the structure of a particular society as a whole? (How do its components relate to and differ from other societies; what are the meanings of its features)
- Where does this society stand in human history? (What changes, what stays the same)
- What different types of people characterise this society? (How are people constructed; who is powerful and powerless)

Sociological Imagination.

- C.W. Mills
- c 1950s

The Sociological Imagination Personal Troubles Linked to Public Issues.

→ Ethnicity. How does the population affect society?

eg marriage equality

in political ideology.

What is a sociological imagination?

- Mills says we must look at the distinction between
- **personal troubles**
(self & personal awareness; individuals have a biography, local)
 - and
 - **public issues**
(larger structure of society; relates to organisational matters; institutions; national or global)

Personal troubles
