LEED Green Associate V4 Exam Complete Study Guide (Second Edition) A. Togay Koralturk,2016-07-21 PASS THE LEED GREEN ASSOCIATE EXAM WITH FLYING COLORS The LEED Green Associate V4 Exam Complete Study Guide aims to provide deep insight into the principles of green building and helps the reader to learn rather than to memorize the essential information for the exam. Thus this approach equips candidates to successfully pass the LEED Green Associate exam with flying colors in order to actively apply green building and LEED principles in real life. This book is the only resource a candidate needs in order to successfully pass the exam. As LEED v4 is quite different in comparison to the former versions the book was entirely re-written thus it was not updated from a previous edition. All of the chapters contain guidance on the aspects that require extensive attention while the book points out the finer details to focus on for the exam purposes. It does not matter how much time passes after taking the exam as learning the real reasons behind the green building and LEED principles through observation will help to consolidate this information concisely. Even though the LEED

Green Associate exams are sometimes referred to as conceptual exams in reality the exam goes well beyond that Without diving into the LEED prerequisites and credits a candidate cannot ever guarantee passing the test as a result the book covers the core concepts of each LEED credit category and then evaluates the LEED prerequisites and credits to demonstrate how those green building concepts turn into real projects with LEED requirements The book is also recommended for students professionals and anyone who has not chosen to take an LEED professional exam but nonetheless retains a strong interest in LEED and green buildings *Introduction to Construction Project Engineering* Giovanni C.
