**Leadership Dispatches** Michael Useem, Howard Kunreuther, Erwann Michel-Kerjan, 2015-03-11 On February 27 2010 Chile was rocked by a violent earthquake five hundred times more powerful than the one that hit Haiti just six weeks prior The Chilean earthquake devastated schools hospitals roads and homes paralyzing the country for weeks and causing economic damage that was equal to 18 percent of Chile's GDP This calamity hit just as an incumbent political regime was packing its bags and a new administration was preparing to take office For most countries it would have taken years if not decades to recover from such an event Yet only one year later Chile's economy had reached a six percent annual growth rate In *Leadership Dispatches* Michael Useem Howard Kunreuther and Erwann Michel Kerjan look at how the nation's leaders in government business religion academia and beyond facilitated Chile's recovery They attribute Chile's remarkable comeback to a two part formula consisting of strong national leadership on the one hand and deeply rooted institutional practices on the other Coupled with strategic deliberative thinking these levers enabled Chile to bounce back quickly and exceed its prior national performance The authors make the case that the Chilean story contains lessons for a broad range of organizations and governments the world over Large scale catastrophes of many kinds from technological meltdowns to disease pandemics have been on the rise in recent years Now is the time to seek ideas and guidance from other leaders who have triumphed in the wake of a disaster In this vein *Leadership Dispatches*
