which you have produced by real and earnest toil You take it for granted that this billion dollars is competently used that those who run the machine are giving your twenty three million children the best education that forty three dollars and forty seven cents per child will buy The purpose of this book is to show you how the invisible government of Big Business which controls the rest of America has taken over the charge of your children In the course of a public debate with the writer in the Civic Club in New York City May 1922 Dr Tildsley district superintendent of the public school system of that city made the statement I do not know any school system in the United States which is run for the benefit of the children They are all run for the benefit of the gang This statement made upon high authority is the thesis of *The Goslings* Come with me and let me show you what is this gang which runs the school system of the United States how they got their power what use they make of it and what this means to the bodies and minds of your twenty three million little ones *Machine Design* ,1988
