The Oxford Handbook of Music Listening in the 19th and 20th Centuries Christian Thorau, Hansjakob Ziemer, 2019 An idealized image of European concert goers has long prevailed in historical overviews of the nineteenth and twentieth centuries This act of listening was considered to be an invisible and amorphous phenomenon a naturally given mode of perception This narrative influenced the conditions of listening from the selection of repertoire to the construction of concert halls and programmes However as listening moved from the concert hall to the opera house street music and jazz venues new and visceral listening traditions evolved In turn the art of listening was shaped by phenomena of the modern era including media innovation and commercialization This Handbook asks whether how and why practices of music listening changed as the audience moved from pleasure gardens and concert venues in the eighteenth century to living rooms in the twentieth century and mobile devices in the twenty first Through these questions chapters enable a differently conceived history of listening and offer an agenda for future research

Booker,2020-07-21 Winner of the 2022 Gustave O Arlt Award in the Humanities award by by the Council of Graduate Schools Explores the role of jazz celebrities like Ella Fitzgerald Cab Calloway Duke Ellington and Mary Lou Williams as representatives of African American religion in the twentieth century Beginning in the 1920s the Jazz Age propelled Black

swing artists into national celebrity. Many took on the role of race representatives and were able to leverage their popularity toward achieving social progress for other African Americans. In *Lift Every Voice and Sing*, Vaughn A. Booker argues that with the emergence of these popular jazz figures who came from a culture shaped by Black Protestantism, religious authority for African Americans found a place and spokespeople outside of traditional Afro-Protestant institutions and religious life. Popular Black jazz professionals such as Ella Fitzgerald, Cab Calloway, Duke Ellington, and Mary Lou Williams inherited religious authority though they were not official religious leaders. Some of these artists put forward a religious culture in the mid-twentieth century by releasing religious recordings and putting on religious concerts, and their work came to be seen as integral to the Black religious ethos. Booker documents this transformative era in religious expression in which jazz musicians embodied religious beliefs and practices that echoed and diverged from the predominant African American religious culture. He draws on the heretofore unexamined private religious writings of Duke Ellington and Mary Lou Williams and showcases the careers of female jazz artists alongside those of men, expanding our understanding of African American religious expression and decentering the Black church as the sole concept for understanding Black Protestant religiosity. Featuring gorgeous prose and insightful research, *Lift Every Voice and Sing* will change the way we understand the connections between jazz music and faith. **Music News**, 1929
