

Analytical Medea

As a mother, Medea suffered an ultimatum; she could leave her children behind and subject them to abuse from the enemies of her past, or she could relieve them of future agony by murdering them. Parents have a natural instinct to give children their best chance. Medea chose to murder her children in order to liberate them from pain. In Greece, men preferred this patriarchal ideal of a silent and obedient wife, who stayed within the confines of the home.

Great scholars such as Aristotle believed that "the male rules and the female is ruled"; his ideas spurred the general social perspective in Greece. There was also a famous, old saying in Greece, where a man thanked God that he was not uncivilized, a slave or a woman. In Athens, men preferred their women to stay home because colonization with other men led to the possibility of infidelity and this would affect the paternity of the child. According to Athenian law, if paternity could not be determined, then the child could not be a citizen.

Through the interactive oral, we were able to better understand that Medea's revenge was catalyzed by restrictions such as status, stereotypes and the misinterpretation of women in the ancient Greece. They combined to make a woman's life difficult at that time in history. Word count: 387 3 "Fifth elements in a person as well as in a society or a state are balanced and strong, one finds harmony and health, beauty and grace," says Aching Cocker.

This is contrary to the play, by Euripides, where the audience follows the protagonist, Medea, as she challenges her role in a contemporary, patriarchal Greek society. Medea's masculine characteristics outweigh her feminine traits, this imbalance in her personality is caused by the lesser status she gains as a foreign woman in an ancient Greek society. In relation to ordinary women and her male counterparts, Jason and King Croon, Medea does not follow the path of all the other women in Corinth. This personality imbalance affects King Croon and Jason, who stray from the standard masculine characteristics.

The author challenges these stereotypes, but in displaying the consequences of defying one's stereotype, he reinforces them. The journal article "Diary of a Greek
