Aseguinolaza, Anxo Abuín Gonzalez, César Domínguez, 2010-05-26 A Comparative History of Literatures in the Iberian  
Peninsula is the second comparative history of a new subseries with a regional focus published by the Coordinating  
Committee of the International Comparative Literature Association As its predecessor for East Central Europe this two  
volume history distances itself from traditional histories built around periods and movements and explores from a  
comparative viewpoint a space considered to be a powerful symbol of inter literary relations Both the geographical  
pertinence and its symbolic condition are obviously discussed when not even contested Written by an international team of  
researchers who are specialists in the field this history is the first attempt at applying a comparative approach to the  
plurilingual and multicultural literatures in the Iberian Peninsula The aim of comprehensiveness is abandoned in favor of a  
diverse and extensive array of key issues for a comparative agenda A Comparative History of Literatures in the Iberian  
Peninsula undermines the primacy claimed for national and linguistic boundaries and provides a geo cultural account of  
literary inter systems which cannot otherwise be explained      Water Resources Research Catalog , 1966      **Energy**
