Arkography Gunnar Olsson,2020-05-01 In this fascinating text Gunnar Olsson tells the story of an arkographer who with Pallas Athene's blessings travels down the Red River Valley navigates the Kantian Island of Truth and takes a house tour through the Crystal Palace the latter edifice an imagination grown out of Gunnael Jensson's sculpture Mappa Mundi Universalis This travel story carries the arkographer from the oldest creation epics extant to the power struggles of today nothing less than a codification of the taken for granted a mapping of the no man's land between the five senses of the body and the sixth sense of culture By constantly asking how we are made so obedient and predictable the explorer searches for the present day counterparts to the biblical ark the chest that held the commandments and the rules of behavior that came with them hence the term arkography a word hinting at an as yet unrecognized discipline In Arkography Olsson strips bare the governing techniques of self declared authorities including those of the God of the Old Testament and countless dictators the latter supported by a horde of lackeys often disguised as elected representatives and governmental functionaries From

beginning to end Arkography is an illustration of how every creation epic is a variation on the theme of chaos turning into cosmic order A palimpsest of layered meanings a play of things and relations identity and difference One and many you and Thinking Italian Animals D.
