Resources in Education, 1998 *Resources in Education*, 1996 *Summaries of Studies in Agricultural Education*
American Vocational Association. Agricultural Education Section, 1961 **The New Social Studies** Barbara Slater
Stern, 2009-11-01 This volume *The New Social Studies People Projects and Perspectives* is not an attempt to be the
comprehensive book on the era Given the sheer number of projects that task would be impossible However the current lack
of knowledge about the politics people and projects of the NSS is unfortunate as it often appears that new scholars are
reinventing the wheel due to their lack of knowledge about the history of the social studies field The goal of this book then is
to sample the projects and individuals involved with the New Social Studies NSS in an attempt to provide an understanding
of what came before and to suggest guidance to those concerned with social studies reform in the future especially in light of
the standardization of curriculum and assessment currently underway in many states The authors who contributed to this
project were recruited with several goals in mind including a broad range of ages interests and experiences with the NSS
from participants during the NSS era through new young scholars who had never heard much about the NSS As many of the
authors remind us in their chapters much has been written of the failure of the NSS However in every chapter of this book
the authors also point out the remnants of the projects that remain *Studies of State Departments of Education* Alina

 Studies of State Departments of Education United States. Office of Education, 1941 **Transforming English**
Studies Lori Ostergaard, Jeff Ludwig, 2009-02-23 *Transforming English Studies* provides a uniquely interdisciplinary view of
English studies crises both real and imagined and works toward resolving the legitimate pathologies that threaten the

 Research in Education, 1974 *Scholars' Guide to Humanities and Social Sciences in the Soviet Union and the Baltic*
States Tigran Martirosyan, Silvia Marette, S. Frederick Starr, 2019-11-21 In the years since the first edition of the Guide was
published the research institutions of the academies of sciences of the USSR and the republics have undergone several
sometimes radical reorganizations and reaffiliations This guide to academy institutions supplies names addresses and
historical research and organizational profiles for each institution with summary information on staffing current projects
special facilities and libraries The end of the Cold War has brought with it many changes of attitude and policy in the political
arena however nowhere has change been so emotionally charged as in the area of politically based emigration Refugee policy
is the driving force behind many of today's headlines influencing both foreign and domestic policy In *Desperate Crossings*
authors Norman L and Naomi Flink Zucker chronicle and analyze the phenomenon of mass escape that began with the
Haitians but exploded into the American consciousness in the spring of 1980 with the Mariel boatlift and the subsequent

mass exodus from Central America and was most recently manifested in the Haitian and Cuban exoduses of 1994 In a compelling and carefully documented narrative they identify the troika of interests foreign policy domestic pressures and costs that have controlled and determined the American response to refugees since before the Second World War continuing until today Desperate Crossings concludes by proposing a comprehensive and politically palatable approach to future refugee flows both in our hemisphere and for the world community at large including Europe and Asia The authors suggest how by changing the course of its refugee policies and programs the United States can better respond to both the needs of refugees and the demands of its citizens
