LAB EXERCISE 5: Lizard Evolution Virtual Lab

Answer the following questions as you finish each module in the virtual lab.

MODULE 1: Introduction

At the beginning of the virtual lab, you were asked to select eight lizards from a category. What criteria did you use to select your lizards?

They were all green and had different shapes of legs and bodies.

Did your lizards grow different body types?

Yes, because the lizards that were selected to grow different body types were selected to grow different body types. The lizards that were selected to grow different body types were selected to grow different body types.

An adaptation is a structure or function that the organism has as a response to its environment. The ability to survive and reproduce is a particular adaptation. Provide one example and an explanation of an adaptation of the lizard you chose.

The lizards that were selected to grow different body types were selected to grow different body types. The lizards that were selected to grow different body types were selected to grow different body types.

Provide one evolutionary explanation for why lizards that were selected to grow different body types (i.e., the green) would have survived & reproduced.

The lizards that were selected to grow different body types were selected to grow different body types. The lizards that were selected to grow different body types were selected to grow different body types.
