But then I've been a professional writer for over 40 years. As one of Canada's most successful writers and authors, I have written hard news articles, soft news, and feature articles, advertising and promotional copy, media releases, reports, and proposals, case studies, research papers, email messages, website content, tweets, blog posts, and other online content. I have also written over 20 books on business, promotional, and online writing, and other topics such as writing articles, memoir writing, and living with Multiple Sclerosis, a disease that I have but one that has not prevented me from writing or training. I've also written a collection of short stories, poetry, and a couple of plays. So while I haven't written everything, I've written many things. The fact is that you can't read this book and go forth and write anything if you are not familiar with the format or structure of the document that you want to write, be it non-fiction or fiction. For instance, if you want to write a report, you do so using the methods in this book. However, you have to know how to structure reports. The same is applicable to email, social media content, articles, promotional content, case studies, reports, white papers, PowerPoint presentations, speeches, website content, short stories, or novels. So some of you reading this book might still have some learning to do. However, I suspect most of you know the structure of the documents you want to produce, and you will be able to immediately apply the methods outlined in the book to writing any document that you need to write. **Documents, Presentations, and Worksheets** Stephanie Krieger, 2011-04-15 Get expert techniques and best practices for creating professional-looking documents, slide presentations, and workbooks. And apply these skills as you work with Microsoft Word, PowerPoint, and Excel in Office 2010 or Office for Mac 2011. This hands-on guide provides constructive advice and advanced timesaving tips to help you produce compelling content that delivers in print or on screen. Work smarter and create content with impact. Create your own custom Office themes and templates. Use tables and styles to help organize and present content in complex Word documents. Leave a lasting

impression with professional quality graphics and multimedia Work with PowerPoint masters and layouts more effectively Design Excel PivotTables for better data analysis and reporting Automate and customize documents with Microsoft Visual Basic for Applications VBA and Open XML Formats Boost document collaboration and sharing with Office Web Apps Your companion web content includes All the book's sample files for Word PowerPoint and Excel Files containing Microsoft Visio samples Visio 2010 is required for viewing
