Hilton, Peter R. Fawson, Thomas J. Sullivan, Cornell R. DeJong, 2019-05-28 Praise for earlier editions I have been using this textbook as a required reading for my research class since 2004 because I found the text's coverage of research concepts to be in depth and easy to read without the technicalities Ziblim Abukari PhD MSW Assistant Professor Department of Social Work Westfield State University Applied Social Research is thorough well organized and clear making it highly appreciated by my students Barry Loneck PhD School of Social Welfare SUNY Albany The tenth edition of this classic text demonstrates how research skills are developed and used to facilitate best social work practices and improve client outcomes New to this edition are additional examples and practitioner profiles demonstrating research based practice problem solving extended vignettes and broad inclusion of the 2015 CSWE competencies The tenth edition also delivers directives for incorporating evidence based practices into daily practice Additional highlights include greater emphasis on conducting practice informed research with minority and other disadvantaged populations This engaging text for MSW and BSW students helps readers develop logic based research skills that prepare them to be scientific practitioners who can use research informed practice to improve clients lives Emphasized throughout is the application of research methods in assessing and monitoring client functioning and outcomes Additional features include robust instructor resources The print version of the book includes free searchable digital access to the entire contents New to the Tenth Edition Practitioner Profiles recounting interviews with actual practitioners Evaluating Competency boxes highlighting the connections between text concepts and CSWE competencies Emphasis on conducting research with disadvantaged populations Enhanced instructor resources including updated test bank with multiple choice short answer and essay questions and PowerPoints Key Features Demonstrates the crucial connection between research and practice to improve client outcomes Develops critical thinking and logic based research skills Helps students to measure and monitor client functions and outcomes and critically evaluate practices programs and services Emphasizes scaling measures to assess client functioning Includes unique chapter on preparing and presenting data **Judgment and Decision-Making** Nancy S. Kim, 2017-10-19 How do we make the judgments that inform our lives Is there any way of consciously removing bias from the choices we make What do our everyday personal decisions have in common with those made by groups companies and even nations In this engaging and innovative textbook Nancy Kim presents a multidisciplinary introduction to the dynamic field of judgment and decision making This lucidly written text delivers insights from cognitive psychology aptly combining with interdependent findings from fields as diverse as neuropsychology behavioural economics social developmental and clinical psychology and

philosophy Offering not only a comprehensive explanation of the neurological structures and cognitive processes that underlie how we make decisions and form judgments in our everyday lives readers can expect to learn the implications of these decisions upon an individual's prospects for health and longevity Understanding behaviour is a central aspect of inquiry in the psychology discipline and as such this book is an essential companion for students taking undergraduate psychology cognitive psychology and cognitive neuroscience courses particularly those which include a module in judgment and decision making This text may also be helpful for undergraduate and postgraduate business courses on the subject

**Deceptive Advertising** Jef Richards, 2013-12-16 This is the first book designed to assist behavioral scientists in the preparation of scholarly or applied research regarding deceptive advertising which will ultimately affect public policy in this area Because there was an inadequate foundation upon which to build a program of research for this topic a three part solution has been devised 1 a review of how deception is viewed and regulated 2 a theory of how consumers process deceptive information 3 a sensitive and consistent means of measuring deceptiveness This text provides detailed discussions regarding the intersection of law and behavioral science and its application to deceptive advertising In so doing it offers a solid foundation upon which to base expanded behavioral research into how consumers are deceived by advertising claims and what cognitive processes are involved in that deception
