Lectures: Chiefly Clinical Thomas King Chambers, 1864 *Lectures: chiefly clinical. (Third edition [of "The Renewal of Life"])*. Thomas King CHAMBERS, 1864 *Lectures in Geochemistry* Alexey Ptitsyn, 2018-10-03 This book is a brief summary of the course of lectures in Geochemistry for undergraduate and graduate students from other than Geological Departments chemists biologists ecologists and naturalists It describes the Earth's structure and some geological processes The modern geochemical concepts take proper account of global geological processes and the influence of Cosmos They are based on the laws and approaches of equilibrium and non equilibrium thermodynamics The cycles of energy and chemical elements within the Earth are interrelated with the global geochemical cycle In addition to the traditional Geochemistry course this book offers Geochemistry of microorganisms Geochemistry of dispersed systems Geochemistry of cryogenesis and Geochemistry of cryptobiosphere Features Provides the reader with a general idea of the Earth's chemical life and its related global geological events Offers a concise and clear description of the modern concepts in Geochemistry including new directions such as Geochemistry of Cryogenesis Geochemistry of Disperse Systems Geochemistry of Microorganisms and Geochemistry of Cryptobiosphere Implies a wide application of the thermodynamic approach Useful for students who though lacking in geology basics are experienced in chemistry and biology *Cellular Pathology as Based Upon Physiological and Pathological Histology; Twenty Lectures ...* Rudolf Virchow, 1860 *Lectures on Plant Physiology* Ludwig Jost, Robert John Harvey Gibson, 1907 *Lectures on the Physiology of Plants* Sydney Howard Vines, *Lectures on Pathology* Ludwig Aschoff, 1924 **Cellular Pathology as based upon physiological and pathological histology. Twenty lectures delivered in ... 1858. Translated from the second edition of the original by F. Chance. With notes and numerous emendations principally from MS. notes of the author, and illustrated by ... engravings on wood.** Rudolf Virchow, 1860 **Lectures on the Surgical Disorders of the Urinary Organs** Reginald Harrison, 1881 **Proceedings of the Ohio State Teachers' Association from Its Formation in 1847** Ohio State Teachers Association, 1851 *Lectures on Surgical Pathology* Sir James Paget, 1876 *Lectures of the Air Corps Tactical School and American Strategic Bombing in World War II* Phil Haun, 2019-04-12 Following the cataclysmic losses suffered in World War I air power theorists in Europe advocated for long range bombers to overfly the trenches and strike deep into the enemy's heartland The bombing of cities was seen as a means to collapse the enemy's will to resist and bring the war to a quick end In the United States airmen called for an independent air force but with the nation's return to isolationism there was little appetite for an offensive air power doctrine By the 1930s however a cadre of officers at the US Army Air Corps Tactical School ACTS had articulated an operational concept of high altitude daylight precision bombing HADPB that would be the foundation for a uniquely American vision of strategic air attack In *Lectures of the Air Corps Tactical School and American Strategic Bombing in World War II* editor Phil Haun brings together nine ACTS lecture transcripts which have been preserved in Air Force archives exactly as

delivered to the airmen destined to lead the US Army Air Forces in World War II Presented is a distinctive American strategy of high altitude daylight precision bombing as told through lectures given at the ACTS during the interwar period and how these airmen put the theory to the test The book examines the Air Corps theory of HADPB as compared to the reality of combat in World War II by relying on recent revisionist histories that have given scholars a deeper understanding of the impact of strategic bombing on Germany

A Nation of Agents James E. BLOCK, James E Block, 2009-06-30 In this sweeping reinterpretation of American political culture James Block offers a new perspective on the formation of the modern American self and society Block roots both self and society in the concept of agency rather than liberty and dispenses with the national myth of the sacred cause of liberty with the Declaration of Independence as its American scripture Instead he recovers the early modern conception of agency as the true synthesis emerging from America's Protestant and liberal cultural foundations Block traces agency doctrine from its pre Commonwealth English origins through its development into the American mainstream culture on the eve of the twentieth century The concept of agency that prevailed in the colonies simultaneously released individuals from traditional constraints to participate actively and self reliantly in social institutions while confining them within a new set of commitments Individual initiative was now firmly bounded by the modern values and ends of personal Protestant religiosity and collective liberal institutional authority As Block shows this complex relation of self to society lies at the root of the American character *A Nation of Agents* is a new reading of what the first new nation did and did not achieve It will enable us to move beyond long standing national myths and grasp both the American achievement and its legacy for modernity

Table of Contents Preface 1 The American Narrative in Crisis Part I The English Origins of the American Self and Society 2 The Early Puritan Insurgents and the Origins of Agency 3 The Protestant Revolutionaries and the Emerging Society of Agents 4 Thomas Hobbes and the Founding of the Liberal Politics of Agency 5 John Locke and the Mythic Society of Free Agents Part II The Ascendancy of Agency and the First New Nation 6 The Great Awakening and the Emergent Culture of Agency 7 The Revolutionary Triumph of Agency Part III The Dilemma of Nationhood 8 The Liberal Idyll amidst Republican Realities 9 From the Idyll Liberation and Reversal in a World without Bounds Part IV The Creation of an Agency Civilization 10 National Revival as the Crucible of Agency Character 11 From Sectarian Discord to Civil Religion 12 The Protestant Agent in Liberal Economics 13 John Dewey and the Modern Synthesis Conclusion The Recovery of Agency Notes Index Reviews of this book

A Nation of Agents is a work of extravagant erudition and originality James E Block has read voraciously in the sources seen things that few have seen before and put them together as none have done before He sets forth a new view of American culture threading his thesis through three centuries of American thought and the preceding century of English thinking besides Michael Zuckerman *Journal of American History* Reviews of this book What a wonder then is James Block's book a daring master narrative and bracing theoretical exercise of the first order It promises and delivers nothing less than a fundamental recasting of the American path to a modern self and society Robert Westbrook

Christian Century Reviews of this book James Block's big ambitious *A Nation of Agents* leaves no doubt about its aspirations in the contest to solve the Gordian knot of the relationship between the one and the many in American social thought The subtlety and acuity with which Block develops these themes through scores of thinkers and over 500 pages can scarcely be exaggerated *A Nation of Agents* is a genuinely prodigious work of scholarship Daniel T Rodgers *Modern Intellectual History* This is an original and exciting work of scholarship in which the idea of agency takes on the characteristics of a deep cultural imperative in American life Block's agency thesis is at once a genealogy of modern American identity and a theoretical exploration of the horizon within which American political and moral self reflection is conducted Eldon J Eisenach *The University of Tulsa* The most remarkable aspect of this book is the author's ability to weave a single thread the thread of agency through four centuries of Anglo American intellectual history Block's great achievement is to propound a new common theme to American history *A Nation of Agents* is a beacon for scholars seeking a usable past If ever intellectual history is to regain its prominence in the field of American history it will require works like this Harry S Stout Yale University

Janda, 2018-06-05 Ten Lectures on Cognitive Linguistics as an Empirical Science details the relationship between form and meaning in language especially at the systematic level of morphology The role of metaphor and metonymy in elaborating meaning are investigated as well as the structuring of semantics in terms of prototypes and radial categories Implications for cultural studies and pedagogical applications are explored The bulk of examples and data are drawn from the Slavic languages
