Introduction to Educational Research Craig A. Mertler, 2011-11-14 This Third Edition of Craig Mertler's practical text helps readers every step of the way as they plan and execute their first educational research project. Offering balanced coverage of qualitative and quantitative methods, an emphasis on ethics, and a wealth of new examples and concrete applications, the new edition continues to use conversational nontechnical language to help students clearly understand and apply research concepts, principles, procedures, and terminology. Expanded coverage of foundations of research, an increased focus on integrating qualitative and quantitative research, and updated coverage of research questions and the tools of qualitative research bring the book thoroughly up to date, while streamlined coverage of statistics shows students how to do quantitative analysis in a straightforward way.

Handbook of Research on Connecting Research Methods for Information Science Research Ngulube, Patrick, 2019-12-13 In today's globalized world, viable and reliable research is fundamental for the development of information. Innovative methods of research have begun to shed light on notable issues and concerns that affect the advancement of knowledge within information science. Building on previous literature and exploring these new research techniques are necessary to understand the future of information and knowledge. The *Handbook of Research on Connecting Research Methods for Information Science Research* is a collection of innovative research on the methods and application of study methods within library and information science. While highlighting topics including data management, philosophical foundations, and quantitative methodology, this book is ideally designed for librarians, information science professionals, policymakers, advanced level students, researchers, and academicians seeking current research on transformative methods of research within information science.

Research Anthology on Innovative Research Methodologies and Utilization Across Multiple Disciplines Management Association, Information Resources, 2021-12-30 Research methodology is as old as academia itself. Research methodology shifts in strategy as it crosses different disciplines and theories. This too is true with the shifting landscape of research opportunities and technologies available to global researchers. To achieve the most accurate and substantial research, it is important to be knowledgeable of emerging research methodologies. The *Research Anthology on Innovative Research Methodologies and Utilization Across Multiple Disciplines* discusses the most recent global research innovations made across multiple fields. This anthology further discusses how these research methodologies can be applied to a variety of specific fields. Covering topics such as creative thinking, qualitative research, and the research method landscape, this book is essential for students and faculty of higher education, scientists, researchers, sociologists, computer scientists, and academicians.

Perceptions Regarding Fraudulent Earned Income Tax Credit Claims Dr. Michael Fidelis-Nwaefulu, 2019-11-21 This descriptive case study investigated the phenomenon of tax practitioner filing fraudulent earned income tax credit claims on behalf of a client. The study took place in the Dallas Fort Worth metropolitan area in Texas in the United States and thirty tax practitioners in the Dallas Fort Worth area in Texas were recruited in a non probability purposeful sampling technique. Eighteen professional tax preparers with an average age of 50.5 years and tax practitioner experience of 11.05 years were interviewed face to face in a one on one setting within the Dallas Fort Worth metropolitan area. The study was necessary to reach data saturation. Half of the participants were females and all participants had college degrees. The research explored paid tax practitioners' perception regarding fraudulent earned income tax credit claims (EITC). The following categories were determined: practitioners' knowledge of EITC rules about compliance and due diligence; knowledge and training of EITC; due diligence program; are vital elements for successful program; workplace culture is influenced by external environment factor; and tax practitioners' decision making choices influence taxpayer behavior. This result of this study may inform stakeholders of behavioral factors that might be necessary to improve EITC claims compliance among all stakeholders.

Strategies for Successful Small Business Ownership in an Unstable Economy Dr. Chris Akaeze, Dr. Nana Akaeze, 2016-12-09 Since early 1960s Nigeria's economy has been unstable and monolithic, centered on crude oil production and export. Instability of Nigeria's economy is contributory to why only less than 20 percent of small startup businesses survive the first five years. In spite of the unstable business environment, owners created approximately 17.3 million small businesses across Nigeria and employed a total of approximately thirty-two million workers with a contribution of about 45 percent to the GDP. Based on theory of constraints, the purpose of this qualitative multiple case study was to explore strategies required by some small business owners to survive Nigeria's unstable economy beyond five years. Data were collected through semistructured interviews with three small business owners who had succeeded in business beyond the first five years from three different regions in Nigeria. The business strategies may help prospective and existing Nigerian small business owners improve profit and sustain business for survival beyond five years.

How Ants Build Pyramids Karl R. Rabes, 2019-08-07 Karl R. Rabes explores the performance impact of differing task designs in crowdsourcing, especially micro task markets. Based on several exploratory literature reviews, the manuscript applies the task technology fit theory and numerous quasi-experiments to show which tasks can be successfully outsourced to the crowd. It is revealed how a task design has an influence on solution quality, taking into account respective task technology and individual characteristics and clearly delineates the differences in objective quality and subjective fit evaluations within and between task designs for micro task markets.

Patrick X. W. Zou, Riza Yosia Sunindijo, 2015-06-15 Although the construction and engineering sector makes important contributions to the economic social and environmental objectives of a nation it has a notorious reputation for being an unsafe industry in which to work Despite the fact that safety performance in the industry has improved injuries and fatalities still occur frequently To address this the industry needs to evolve further by integrating safety into all decision making processes Strategic Safety Management in Construction and Engineering takes a broad view of safety from a strategic decision making and management perspective with a particular focus on the need to balance and integrate science

and art when implementing safety management The principles covered here include the economics of safety safety climate and culture skills for safety safety training and learning safety in design risk management building information modelling and safety research methods and the research practice nexus They are integrated into a strategic safety management framework which comprises strategy development implementation and evaluation Practical techniques are included to apply the principles in the context of the construction and engineering industry and projects Case studies are also provided to demonstrate the localised context and applications of the principles and techniques in practice On the Methodology of Financial Economics Kavous Ardalan,2023-06-01 Utilizing a multi paradigmatic approach in considering the scientific methodology of mainstream financial economics and suggesting improvements this book identifies eleven biases of the scientific methodology of mainstream financial economics namely intellectual bias local bias fad bias ideological bias automaticity bias confirmation bias cultural bias stereotyping bias under productivity bias homogeneity bias and isolation bias **The Politicization of Ethnicity as Source of Conflict** Ademola Adediji,2016-05-11 In view of the explosion of violent conflicts in many parts of the world and the hasty but prevailing assumption that ethnicity is the source of these conflicts this book is encompassed to highlight describe and examine how ethnicity is politicized in many of these current conflicts By deploying the instrumentalist approach and the theory of identity and difference in ethnicity the author identifies the actors involved and depicts how religion is exploited as an instrument of division by reflecting it on the Nigerian situation exploring the examples of the Jos conflicts and the Warri Crisis within a twenty years period 1990 to 2010
