Yes, You Can! And Freeze and Dry It, Too Daniel Gasteiger, 2011-04-10 Preserving food is hot The local food movement

gains even more popularity as consumers return to vegetable gardening to grow their own food. They increasingly have become interested in the techniques for putting up their bounty. Driven by the recession, the need for healthier, chemical-free food, and taste, people everywhere are preserving the abundance of fruits, vegetables, and herbs harvested from their garden or someone else's. You don't even have to grow your own to preserve freshness; non-gardeners too are learning to preserve with locally grown produce bought from local markets. Targeted at anyone who wants to capture the flavor of freshness, whether it's from making tomato sauce, drying herbs, or preserving jams and jellies.
