

Emergency Department Coding Policy

Emergency department (ED) physicians often perform acute surgical, orthopedic, and other high-risk procedures (e.g., total hip arthroplasty) in the ED. Coding policies for these procedures are established by the appropriate specialty coding committees for that body. These committees determine how to assign codes to other acute surgical procedures, including critical surgical and urgent (e.g., urgent orthopedic) cases, including their status. Many times, these codes are subject to change, and committees may recommend changes to the coding system.
