Fahrenheit 451 Ray Bradbury, 2003-09-23 Set in the future when firemen burn books forbidden by the totalitarian brave new world regime Fahrenheit 451 - Ray Bradbury, New Edition Ray Bradbury, 2008 Presents a collection of critical essays about Fahrenheit 451 by Ray Bradbury **Fahrenheit 451** Ray Bradbury, 1993 The hauntingly prophetic classic novel set in a not too distant future where books are burned by a special task force of firemen Over 1 million copies sold in the UK Guy Montag is a fireman His job is to burn books which are forbidden being the source of all discord and unhappiness Even so Montag is unhappy there is discord in his marriage Are books hidden in his house The Mechanical Hound of the Fire Department armed with a lethal hypodermic escorted by helicopters is ready to track down those dissidents who defy society to preserve and read books The classic novel of a post literate future Fahrenheit 451 stands alongside Orwell's 1984 and Huxley's Brave New World as a prophetic account of Western civilization's enslavement by the media drugs and conformity Bradbury's powerful and poetic prose combines with uncanny insight into the potential of technology to create a novel which over fifty years from first publication still has the power to dazzle and shock *GK Joyride* □ 8 Joy Bhattacharjya, GK Joyride series for classes 1 through 8 renews the relevance of General Knowledge in the age of the Internet social media platforms and information overload Remaining strongly rooted in the tenets of the National Curriculum Framework it also acknowledges the changing terrain of knowledge acquisition The New Enlightenment and the Fight to Free Knowledge Peter B. Kaufman, 2021-02-23 How do we create a universe of truthful and verifiable information available to everyone In The New Enlightenment and the Fight to Free Knowledge MIT Open Learning's Peter B Kaufman describes the powerful forces that have purposely crippled our efforts to share knowledge widely and freely Popes and their inquisitors emperors and their hangmen commissars and their secret police throughout history all have sought to stanch the free flow of information Kaufman writes of times when the Bible could not be translated you'd be burned for trying when dictionaries and encyclopedias were forbidden when literature and science and history books were trashed and pulped sometimes along with their authors and when efforts to develop public television and radio networks were quashed by private industry In the 21st century the enemies of free thought have taken on new and different guises giant corporate behemoths sprawling national security agencies gutted regulatory commissions Bereft of any real moral compass or sense of social responsibility their work to surveil and control us are no less nefarious than their 16th and 18th and 20th century predecessors They are all part of what Kaufman calls the Monsterverse The New Enlightenment and the Fight to Free Knowledge maps out the opportunities to mobilize for the fight ahead of us With the Internet and other means of media production and distribution video especially at hand knowledge institutions like universities libraries museums and archives have a special responsibility now to counter misinformation disinformation and fake news and especially efforts to control the free flow of information A film and video producer and former book publisher Kaufman begins to draft a new social contract for our networked video age He draws his

inspiration from those who fought tooth and nail against earlier incarnations of the Monsterverse including William Tyndale in the 16th century Denis Diderot in the 18th untold numbers of Soviet and Central and East European dissidents in the 20th many of whom paid the ultimate price Their successors Advocates of free knowledge like Aaron Swartz of free software like Richard Stallman of an enlightened public television and radio network like James Killian of a freer Internet like Tim Berners Lee of fuller rights and freedoms like Edward Snowden All have been striving to secure for us a better world marked by the right balance between state society and private gain The concluding section of the book its largest piece builds on their work drawing up a progressive agenda for how today s free thinkers can band together now to fight and win With everything shut and everyone going online The New Enlightenment and the Fight to Free Knowledge is a rousing call to action that expands the definition of what it means to be a citizen in the 21st century

Laura Ingalls Wilder and Rose Wilder Lane John E. Miller, 2008-12-03 The mother daughter partnership that produced the Little House books has fascinated scholars and readers alike Now John E Miller one of America's leading authorities on Laura Ingalls Wilder and Rose Wilder Lane combines analyses of both women to explore this collaborative process and shows how their books reflect the authors distinctive views of place time and culture Along the way he addresses the two most controversial issues for Wilder Lane aficionados how much did Lane actually contribute to the writing of the Little House books and what was Wilder's real attitude toward American Indians Interpreting these writers in their larger historical and cultural contexts Miller reconsiders their formidable artistic political and literary contributions to American cultural life in the 1930s He looks at what was happening in 1932 from depression conditions and politics to chain stores and celebrity culture to shed light on Wilder's life and he shows how actual little houses established ideas of home that resonated emotionally for both writers In considering each woman's ties to history Miller compares Wilder with Frederick Jackson Turner as a frontier mythmaker and examines Lane's unpublished history of Missouri in the context of a contemporaneous project Thomas Hart Benton's famous Jefferson City mural He also looks at Wilder's Missouri Ruralist columns to assess her pre Little House values and writing skills and he readdresses her literary treatment of Native Americans A final chapter shows how Wilder's and Lane's conservative political views found expression in their work separating Lane's more libertarian bent from Wilder's focus on writing moralist children's fiction These nine thoughtful essays expand the critical discussion on Wilder and Lane beyond the Little House Miller portrays them as impassioned and dedicated writers who were deeply involved in the historical changes and political challenges of their times and contends that questions over the books authorship do not do justice to either woman's creative investment in the series Miller demystifies the aura of nostalgia that often prevents modern readers from seeing Wilder as a real life woman and he depicts Lane as a kindred artistic spirit helping readers better understand mother and daughter as both women and authors
