If ever there were a book to respond to the pressure to increase students' test scores, this is it. You see, Gretchen Bernabei and Judi Reimer have had amazing success using mentor texts by students to teach writing well in any genre. Now they hand over their file drawers and pair 101 student essays with one-page lessons on topics such as how to choose a structure across genres, extract thesis statement and main points, support points with details, use rhetorical devices and grammatical constructions, write from the point of view of a fictional character. **Academic Misconduct and**

Plagiarism Bernard Montoneri, 2020-11-15 This book discusses the issue of academic misconduct and publication ethics in general and plagiarism in particular with a focus on case studies in various universities around the world, notably in Japan, Singapore, Australia, USA, and Canada. We are especially interested in students' and teachers' perception of academic misconduct and their definition and understanding of plagiarism. Most chapters discuss undergraduates' understanding of academic dishonesty and students' experiences using plagiarism software. The book also analyzes teachers' perception of cheating and how they respond to it. Writing is perceived by all of the teachers to be the most important form of assessment that required preventative measures in order to reduce the occurrence of academic dishonesty among students. Each chapter recommends strategies to fight plagiarism such as establishing guidelines and regulations concerning academic integrity, awareness of the scale of the issue, scandals at all levels in most countries, even including famous scholars, administrators, and elected officials, assessing the damage done to academic reputation and credibility, developing trust and credibility on social media, especially with the recent disturbing growth of fake news, and data minimizing the proliferation of dishonest accreditation, identity theft, fake peer reviews, and fighting the growing number of fake papers with or without the use of computer-generated academic works. **Interactions** Leif Fearn, Nancy Farnan, 2001 Publisher description This book
