Affordable, low-A, benchtop power supplies provide excellent performance and flexibility

A whole family of three new power supplies to meet your needs

The E3600 series of low-cost benchtop power supplies that are the perfect source of system power regulation without the high price. Agilent's quality manufacturing plus thoughtful design with dependable regulation and fast transient response. E3600 series specifications available on www.agilent.com. This page (five pages) for technical data, see dual and triple output models.

regulation, low noise and low ripple. All models except the E3604 also feature 10-turn potentiometers for accurate adjustment of voltage and current output settings.

With 10-turn potentiometer and low regulation, three instruments keep the output steady when power line and load changes occur. The low ripple mode gives specifications of less than 100µVrms across most of the power range.

In all model-output models, output the polarity of output terminal can be connected to ground, providing a positive or negative voltage output. Outputs can also be floated up to 200V from ground.

Three interchangeable line filters are provided: normal line, filtering and 50 Hz line current bleed without bleed circuit.

These popular models are also designed for ground connection. The constant voltage, constant current output allows operation as either a voltage or current source. The computer screen automatically shows on the load. Each of three models has three ranges, allowing power output at a lower voltage. The highest output voltage, supplies can be connected to system.
