Rus,2008-01-30 At the dawn of the new millennium robotics is undergoing a major transformation in scope and dimension

From a largely dominant industrial focus robotics is rapidly expanding into the challenges of unstructured environments

Interacting with assi ing serving and exploring with humans the emerging robots will increasingly touch people and their

lives The goal of the new series of Springer Tracts in Advanced Robotics STAR is to bring in a timely fashion the latest

advances and developments in robotics on the basis of their significance and quality It is our hope that the wider

dissemination of research developments will stimulate more exchanges and collaborations among the research community

and contribute to further advancement of this rapidly growing field Since its inception wanted by my STAR Co Editor
