Speech Sound Accuracy Hierarchy: The goal of this hierarchy is to improve accuracy of speech sounds and ability to combine sounds into different structures.

****Children may be working in more than one level at once. Also, children may not take these levels in order. Use this as a framework but please customize it to the needs of the child you're working with.**

Level	What it Looks Like	What to Work On
1. Imitating Actions	Child is unable to imitate speech sounds.	Build trust and motivation to imitate actions, start with whole body and move toward mouth
2. Functional Sounds, Sound Effects, Vocalizations	Child is able to imitate actions but unable to imitate or produce sound combinations	Increasing imitation and production of sound effects, functional sounds (like mmm for eating), and vocalizations. Pair sounds with actions and praise any attempts to make sound with the mouth. Provide temptations to make the sounds.
3. Sound Combinations (CV, VC)	Child is able to imitate or produce some sounds but is not yet spontaneously combining 2 sounds, like consonant-vowel or vowel-consonant	Target words that combine one vowel with one consonant. Use these words repeatedly in functional activities at first and then transition to being able to do drill work. Start with a few words and gradually increase number of sounds used and vary their placement (before or after vowel). Once child has several CV or VC words, use one as a carrier phrase and combine together (my ball)
4. Repeated Strings of CV or VC	Child is able to combine a vowel and consonant together but is not yet producing longer utterances	String together repeated CV or VC combos, like mama or mamama. Practice transitional movements of articulators. Once comfortable, add changes to the sequence, like ma ma ma mow or ma mow ma mow
5. Add a Structure, Add a Sound	Child is able to say some limited structures (like CV, VC, and CVCV) but struggles to say longer or more complex words	Teach the child to say a new sound in mastered structures or mastered sounds in new structures: CVC, CCVC, CVCC, CVCV, CVCVC, CCVCV, CVCVCV, CCVCVC, CVCCVC, CVCVCC, CVCVCV, etc. Combine all mastered words together in carrier phrases and single phrases/sentences
6. Sound Accuracy in Phrases and Sentences	Child is able to produce single words of many structures with speech sound accuracy but intelligibility decreases in phrases and sentences	Start with 2-word phrases and build up. Use the same word and build it up into a sentence (see...I see...I see cat...I see the cat)
7. Sound Accuracy in Connected Speech	Child is able to produce sounds correctly in simple sentences and phrases but intelligibility decreases in	Start with long sentences and automatic speech tasks, then move to open-ended questions, reading paragraphs, structured conversation, and
