Ocean to Outback Keith Jacobs, Jeff Malpas, 2011 Many debates that continue to ignite and divide Australians stem from notions of nationality and citizenship ethnicity and multiculturalism community and place In *Ocean to Outback* eleven authors address these topics as real concerns for groups and communities In an increasingly fractious and unstable world the need for such an investigation is paramount if we are to find ways of negotiating and working through the conflicts and tensions that arise such as the 2005 Cronulla riots Issues that have plagued Australian society in recent years such as immigration the treatment of refugees national identity and the meaning of terrorism are better understood through the lens of cosmopolitanism as we think about our relation to and place in the wider world Viewed as an ongoing political project cosmopolitanism has important implications for Australia's sense of connection to the rest of the globe and this book offers a positive approach to contemporary politics and society Publisher's website **Annual Report** United States.

Congressional-Executive Commission on China, 2008 **Strangers Next Door?** Tim Lindsey, Dave McRae, 2018-02-22 There are no two neighbouring countries anywhere in the world that are more different than Indonesia and Australia They differ hugely in religion language culture history geography race economics worldview and population Indonesia 270 million Australia less than 10 per cent of that In fact Indonesia and Australia have almost nothing in common other than the accident of geographic proximity This makes their relationship turbulent volatile and often unpredictable *Strangers Next Door* brings together insiders and leading observers to critically assess the state of Australia Indonesia relations and their future prospects offering insights into why the relationship is so important for Australia why it is so often in crisis and what this means for the future This book will be of interest to anyone concerned with the Indo Pacific region Southeast Asia Australia and Indonesia and each country's politics economy and foreign policy It contains chapters that will interest specialists but are written in a style accessible to a general audience The book spans a diverse range of subjects including political relations and diplomacy security and defence the economy and trade Islam education development the arts legal cooperation the media women and community ties Contributors assess the current state of relations in their sphere of expertise and outline the factors and policies that could shape bilateral ties and Indonesia's future over the coming decades University of Melbourne scholars Tim Lindsey and Dave McRae both prominent observers and commentators on Indonesia and its relations with Australia edited the volume providing a synthesising overview as well as their own thematic chapters *Animal Law and Welfare - International Perspectives* Deborah Cao, Steven White, 2016-02-03 This book focuses on animal laws and animal welfare in major jurisdictions in the world including the more developed legal regimes for animal protection of the US UK Australia the EU and Israel and the regulatory regimes still developing in China South Africa and Brazil It offers in depth analyses and discussions of topical and important issues in animal laws and animal welfare and provides a comprehensive and comparative snapshot of some of the most important countries in the world in terms of animal population and worsening

animal cruelty Among the issues discussed are international law topics that relate to animals including the latest WTO ruling on seal products and the EU ban the Blackfish story and US law for cetaceans the wildlife trafficking and crimes related to Africa and China and historical and current animal protection laws in the UK and Australia Bringing together the disciplines of animal law and animal welfare science as well as ethics and criminology with contributions from some of the most prominent animal welfare scientists and animal law scholars in the world the book considers the strengths and failings of existing animal protection law in different parts of the world In doing so it draws more attention to animal protection as a moral and legal imperative and to crimes against animals as a serious crime

Indigenous Peoples as Subjects of International Law Irene Watson, 2017-07-14 For more than 500 years Indigenous laws have been disregarded Many appeals for their recognition under international law have been made but have thus far failed mainly because international law was itself shaped by colonialism How this volume asks might international law be reconstructed so that it is liberated from its colonial origins With contributions from critical legal theory international law politics philosophy and Indigenous history this volume pursues a cross disciplinary analysis of the international legal exclusion of Indigenous Peoples and of its relationship to global injustice Beyond the issue of Indigenous Peoples rights however this analysis is set within the broader context of sustainability arguing that Indigenous laws philosophy and knowledge are not only legally valid but offer an essential approach to questions of ecological justice and the co existence of all life on earth The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons CC BY NC ND 4.0 license

Beyond Betrayal Keith Newman, 2013-09-25 *Beyond Betrayal* delves into New Zealand's pioneering history and asks why such promising partnerships descended into decades of distrust After the Treaty of Waitangi was signed a succession of governors resisted missionary advice despite their local knowledge and peacemaking skills and influenced a raft of misunderstandings that provoked violent outbreaks across the country The rise of Maori prophetic movements and an intense desire for Maori to have a unified political voice saw allegiances split between those supporting the government and those frustrated at failed Treaty promises The pressure to surrender tribal lands had the same impact a shattered economy and a dispossessed people The thrilling follow up to Keith Newman's bestselling *Bible Treaty Beyond Betrayal* looks behind the events that led to the first Maori land protests and follows the unfolding drama through the stories of the early missionaries and Maori heroes of the faith These dramatic and heartrending tales of injustice sacrifice and redemption form an important and often misunderstood backdrop to the wider New Zealand story one of the most turbulent periods in our history told with skill sensitivity and heart
