

VISOR™ Prism

The infinitely expandable
handheld computer with
vivid color.

The Handspring Visor Prism is the first infinitely expandable full-color handheld computer. This pocket-sized wonder **displays over 65,000 vibrant colors** so everything is crisper, brighter and easier to read. And, with the **unique Springboard™ expansion slot**, you can snap in a digital camera or global positioning system and instantly view full-color photos and maps. Best of all, it's plug-and-play so there are no drivers to load. Just snap in a module and it works!

Based on the popular Palm OS®, Visor Prism does everything the Palm™ organizer does...and more. So, in addition to an address book, to-do list and memo pad, there are new features like an enhanced date book, advanced calculator and a world clock to make its organizational capabilities even better. And, since it uses the Palm OS, you can learn information with other Palm users

or download thousands of existing Palm-compatible applications, including those with color.

And if all that weren't enough, the **USB connection** makes synchronizing with your desktop computer really fast—and really easy. Which means you can quickly back up, update or exchange information between your Visor Prism handheld and desktop computer with the USB charging cradle and HotSync® technology. And the Visor Prism's internal battery **recharges right in the cradle**.

The Visor Prism comes in one great color on the outside—with 65,536 more displayed on your screen. Plus there are lots of accessories to choose from like custom cases, keyboards and more.
